PART I CONSTITUTION AND WORKING OF THE MUNICIPALITY

2 Municipal Boundaries and Area The boundaries of the Municipality remained unchanged and was the same as in the previous year The total area of the City was 12 75 square miles The Municipality have resolved to include Kumbarakoppal, Thonachikoppal and Vaddarapalya within the Municipal limits and correspondence in this matter is proceeding.

B

3 Constitution of Municipal Councils.

The strength of the Municipal Council continued to be 31, of which 24 members were elected by the rate-payers and 7 inclusive of the President were nominated by Government The following members continued to hold the office during the year under report

1 Mr B S Raghavendra Rao, M A.(Hons) - President
2 Mr P Sitaramiah, B A ,B L - Vice-President
3 Mr A Krishna Murthy
4 Mr S Linganna
5 Mr U L Ramachandra Rao
6 Mr Chowdiah
7 Mr M K Linganna, B A ,LL B
8 Mr M C Mallappa
9 Mr T Mariappa, B A ,LL.B
10 Mr T S Rajagopala Iyengar, M A ,LL B
11 Mr A N Suryanarayana Rao
12 Mr N Rajagopala Iyengar, B A ,B L
13 Mrs B Kameswaramma, B A
14 Mr Agaram Rangiah
15 Mr B Narayanaswami, B A ,B L
16 Mr M V Venkataramaiya
17 Mr M S Nanjappa
18 Mr G R Rangaswamiah
19 Mr E P Nanjappa
20 Mr A J Ram

21 Mr G Janardhan Naidu
22 Mr Patnam Sreenivasa Setty
23 Mr M R C. Basappa
24 Mr T Venkataramaniaya
25 Mr T Narasimha Iyengar, B A ,B L
26 Mr T S Ali Khan
27 Mr Mohamed Khalilullah, M A ,LL B
28 Mr Haji Mir Amiruddin Khuraishi
29 Mr S A Kareem
30 Mr B L Maridandiah
31. Mr F C Devaraja Urs

A casual vacancy occurred in Krishnaraja Mohalla during the year due to the demise of Mr C S Dixit, and Mr T S Rajagopala Iyengar, who was the only candidate for the vacant place, was duly declared elected as a member to the Municipal Council

I continued to be in charge of the office of the President throughout the year under report

Mr T. Mariappa, B A ,LL B , was the Vice-President till the 2nd January 1942 and Mr P Sitaramiah, B A ,B.L , succeeded him from 15th January 1942

Messrs B Krishniengar, B Sc ,B E , and S Seshagiri Rao,

B Sc , M B B S ,D P H were the Municipal Engineer and the Health Officer respectively till 11-9-1941 and 2-1-1942 when they were succeeded by Messrs B. R Manickam, B E , and T Chandrasekhariah, B.A ,M B B S , M P H Mr S A Gani who was the Revenue Officer from 1-7-1941 to 5-11-1941 was transferred on promotion as Assistant Commissioner and as a temporary measure he was relieved by Mr S Siddappa, Octroi Superintendent, who remained in charge of the Office, till 25-12-1941 Mr H C. Jambukesvaraiya, Amildar, who was appointed as Revenue Officer of this Municipality took charge on 25-12-1941 and continued in that office till the end of the year

The appointment of a separate officer of the grade of a Sub Engineer as a Licensing Officer for this Municipality, to assist the Municipal Engineer in controlling the construction of buildings by proper scrutiny of building licenses, was sanctioned by Government in their order No L 2992-96/MI 11-41-16 dated 11-10-1941 The Officer posted to the place, Mr H G Narasimha Murthi continued as Licensing Officer of this Municipality till the end of the year under report

5 Elections. There was no general election during the year A casual vacancy in the personnel of the Municipal Council occurred due to the demise of Mr C S Dixit but there being only one candidate-Mr T S Rajagopalainegar- he was duly elected to the Council

8 Bye-laws, Rules and Regulations No bye-laws and Rules or amendments thereto were sanctioned by Government during the year under report

The introduction of the following bye-laws or amendments to existing ones are under consideration

(i) Amendment to the Bye-laws relating to the Dangerous and Offensive trades, so as to make provision for reasonable space in Firewood depots

(ii) Bye-laws for prescribing the taking out of a license for Bamboo and Timber Trade in the City

(iii) Bye-laws for conserving and preventing injury to water supply in wells in Mysore City

(iv) Bye-laws relating to Ferriers

Amendments to Bye-laws for regulating the Dangerous and Offensive Trades so as to bring the "Parching of Bengal gram for commercial purposes" under offensive trades, have been sanctioned by Government in the current year, in their Order No L 513-5/M1

135-41-32 dated 16th July 1942

B

9. Fresh Imposts and Taxes, Fees etc. The following new tax and impost were levied in the Municipality during the year

(a) Levy of tax on dogs, with effect from 1-1-1942, as sanctioned in Government Order No L 9045-46/M1 57-40-102 dated 26th June 1941

(b) Levy of Education Cess of two annas in the rupee on taxes on buildings and lands, with effect from 1941-42,

As per Government Order No E 1358-71/Edn 195-40-2 dated 16th October 1941

The Municipal Council however in their Resolution No 747 dated 12th May 1942 stated that

"The Municipal Council is already paying a sum of Rs 25,000 under the Elementary Education Act of 1930 This Act having been repealed under Section 2 of the new Act this payment could no longer be enforced While according to the old order as per the above act of 1930 this Municipality was paying Rs 25,000 according to the

cess now levied under the Act of 1941, the payment to Government will be Rs 18,600 as per calculations enclosed

The Municipal Council therefore respectfully submits to Government that the levy on account of the new cess will be much less than what the Council is already paying As this cess will act as an additional tax and will be a hardship to the rate-payers the Government may be pleased to continue to accept the Rs 25,000 that this Municipality is now paying in lieu of the cess contemplated and waive the levy of the same in Mysore City area under Section 1(5) of the new Act, since the Municipality really agrees to pay much more than the proceeds of the new levy

In these circumstances, the Council also requests the Government to issue instructions to the executive to refrain from collecting this cess "

Orders on this resolution are awaited In the meanwhile

meanwhile since the levy was under a special Act a demand for Education Cess for the year 1941-42 has been taken and separate bills issued to the parties pending final orders of Government on the resolution passed

B

11 Demand, Collection and Balance - Appendix V shows the demand, collection and balance of rates and taxes for the year 1941-42

The arrears at the beginning of the year amounted to Rs 1,26,505, the demand under all heads during the year was Rs 6,23,621 and the total demand including arrears was Rs 7,50,126 The collection during the year was 6,67,719 including a remission of Rs 10,132 The balance at the end of the year was 82,407, as against Rs 1,26,505 at the end of the previous year The percentage of total collection under all heads to the total demand was 88 9 as against 86 00 in the previous year The figures of demand, collection and Balance for the previous five years is noted below for ready reference

Year	Demand including arrears	Collection	Balance
1937-38	7,34,221	5,57,316	1,76,905
1938-39	7,43,593	5,89,344	1,54,249
1939-40	8,09,512	6,25,367	1,84,145
1940-41	8,08,385	6,81,880	1,26,505
1941-42	7,50,126	6,67,719	82,407

para 11 continued)

It will be seen from the above figures that the collections this year are the highest on record

Assessed Taxes The arrears under this head at the beginning of the year under report amounted to Rs 1,26,505 and a sum of Rs 3,31,467 was brought on demand during the year, making a total of Rs 4,57,972 A sum of Rs 3,65,433 was recovered and Rs 10,132 was remitted as irrecoverable Thus the balance at the end of 1941-42 was Rs 82,407/- The demand, collection and balance during the last five years is noted below for purposes of reference The collection is a record one for this Municipality Regarding the arrears of Rs 82,407, Rs 35,322 out of has since been collected Out of the Balance of Rs 47,085 in respect of over Rs 25,000 suits are either filed or to be filed About Rs 4500 represents wrong demand and regarding the balance, the collection work is in various stages

Years	Demand	Collection	Balance
1937-38	4,47,386	2,70,481	1,76,905
1938-39	5,21,749	3,12,087	2,09,662
1939-40	5,32,774	3,40,521	1,92,253

1940-41	5,09,775	3,83,270	1,26,505
1941-42	4,57,972	3,75,565	82,407

Other items - The demand under other items of revenue other than Octroi, Toll and Assessed Taxes, was Rs 1,06,281 inclusive of arrears, out of which a sum of Rs 1,04,818 was collected during the year leaving a balance of Rs 1,463, as against Rs 1,622 in the previous year Out of this a sum of Rs 626 has since been collected, leaving only a small balance of Rs 837 Of this Rs 700 relates to the old arrears in the Devaraja Market, i e , arrears prior to 1939-40 which has to be written off and this matter is engaging the attention of the Council There are no arrears out of the demand arising out of 40-41 and 41-42 the percentage of collection being 100%

B2

12 Incidence of Taxation The incidence of taxation per head based on the population according to the Census of 1941 works up to Rs 4-5-9 as against Rs 4-6-6 in the previous year The difference calls for no remarks

PART II - FINANCIAL POSITION

13 The year opened with a cash balance of Rs 46,147 excluding a sum of Rs 50,207 in the Savings Bank The receipt and expenditure under all heads amounted to Rs 9,27,097 and Rs 8,77,198, respectively, leaving a closing balance of Rs 96,046 This excludes the sum of Rs 50,392 invested in the Government Savings Bank which remained undrawn

As already stated, there was a marked improvement in collections under all heads, the collections being higher than any of the previous years as seen from the five years' figures under the principal heads of revenue noted below

Year	Octroi	Mohatarfa	Toll	Vehicle tax	Water Tax	Total
1937-38	1,66,100	1,72,693	82,927	44,922	97,234	5,63,876
1938-39	1,67,701	2,02,851	69,342	37,006	1,02,747	5,79,647
1939-40	1,72,994	2,06,547	71,181	37,633	1,24,169	6,12,524
1940-41	1,85,697	2,20,213	71,360	41,579	1,43,821	6,62,670
1941-42	1,90,341	2,24,277	73,711	41,053	1,41,401	6,70,783

The demand including arrears was less than that of previous years

Further details regarding these are given in Part III

PART III- RECEIPTS

14 A Municipal Rates and Taxes

Octroi - The collections under this head were Rs 1,90,300, as against Rs 1,85,697 in the previous year The details of realisations are given in appendix VIII A The increases are mainly under the following heads -

Cocoanut (dry and fresh)
Sugar
Butter
Musical Goods
Soap
Glassware
Tobacco
Coffee
Tea

The collections under this head has been the highest on record during the current year

1937-38	Rs 1,66,100
1938-39	1,67,710
1939-40	1,72,991
1940-41	1,85,697
1941-42	1,90,300

Part of the credit for the increase is due to frequent

changes in the staff and regular inspections by the superior officers

15 Taxes on Buildings and Lands Appendix V gives the particulars of demand and collection under this head

The collections under this head of revenue during the last five years is given below* and under this head also the collection this year is the highest on record

The D C B during the last five years is noted below

Year	Demand	Collection	Balance
1937-38	2,44,435	1,38,769	1,05,666
1938-39	2,81,482	1,62,951	1,18,531
1939-40	2,59,723	1,67,407	92,316
1940-41	2,42,596	1,75,580	67,016
1941-42	2,19,983	1,79,137	40,846

The Revenue Officer and his staff have striven hard to secure these results and great credit is due to them

Out of the balance of Rs 40,846, Rs 20946 has since been collected The arrears still remaining has been classified

into cases for which suits have yet to be filed and those in which further action has to be taken Cases of wrong demand are being pursued and mistakes adjusted

B

B - REALISATIONS UNDER SPECIAL ACTS

16 Pounds The collections under this head during the year was Rs 1,422, as against Rs 2,316 The fall in collection is due to the fact that in previous years a special cattle catching gang had been employed and all stray cattle were being caught and impounded The Council, however, in their resolution No 539 dated 19 5 941 resolved to do away with this gang, a small provision being retained for employing a temporary gang during special occasions With the dismissal of this gang, the stray cattle nuisance has increased and repeated complaints are being received especially during the blackout period of cattle sleeping in the centre of our roads and obstructing traffic If the ordinary staff continues to be unable to deal effectively with this stray cattle nuisance the question of reviving the cattle gang has to be taken up

17 Public Conveyances

17 Public Conveyances 1915 vehicles were licensed during the year, as against 1834 in the year 1940-41 In licensing the public conveyances, precaution was taken to pass for registering only such of the vehicles, as were in good condition

The register of vehicles of animals is being regularly scrutinised to prevent leakage of revenue and all cases where licenses are not renewed, scrutinised to see that the vehicles or animals concerned are really not in use

By

PUBLIC DEBT

21 Loans With a view to make water available in time of emergency, the Municipal Council resolved vide Resolution No 630 dated, 7 3 1942 that all the closed wells in the City be re-opened and got cleaned properly and also to sink new wells in suitable places in several mohallas in the City and that the funds required be obtained as an outright grant or at least as a loan from Government, free of interest On this, the Government in their Order No 9727-30/M1 159-41-6 dated 14-4-1942 was pleased to sanction a loan of Rs 25,000, free of interest, and repayable within a period of not more than 10 years in equal annual instalments It was also directed that two wells in each Mohalla may be undertaken treating them as the first stage in the programme The wells works are in progress and are practically completed A number of old wells have been selected for renovation and some of these have been and are being renovated now that the

rainy season is over considerable progress is expected to be made in the coming months

B

24 Rewards for destruction of wild animals, snakes, dogs etc

The expenditure incurred under this head during the year was Rs 98/- as against Rs 217 in the previous year

178 9 stray dogs were destroyed during the year, as against 2852 in the previous year

25 AS the Municipality has got its own Engineering Staff, no civil works relating to the Municipality are being done by the Public Works Department The works relating to Water Supply however are as usual got done through the Vani Vilas Water Works, which is under the Department of Public Health

L 26 Public Works carried out by Civil Department

The expenditure under this head during the year amounted to Rs 1,49,841 as against Rs 1,05,659/-

32 E Public Health and Convenience

Conservancy The Health Officer was in direct control of the Health Department of the Municipality during the year as before and conservancy arrangements were satisfactorily attended to under his supervision with the help of the subordinate staff The Public health of the Municipality was on the whole quite good

As reported already in the Chapter under 'Public Health' the number of births this year was more and the deaths less than the previous year and the percentage of infant mortality was also less than the previous year

2 The Licensing of Hotels, coffee clubs, bakeries, etc , was done carefully in conformity with the rules prescribed in this behalf and wherever necessary prosecutions were launched The scope of work in the Health Office Laboratory was increased during the current year as could be seen by the statistics noted below -

(continued

COMPARATIVE STATEMENT FOR THE LAST EIGHT YEARS, 1-7-34 to 1-7-1942

Year	Total samples examined	Samples of foods	Samples found to be adulterated	Cases prosecuted	Cases convicted	Fines	Fees
1	2	3	4	5	6	7	8
						Rs	
934-35	458	125	58	45	32	311/-	
935-36	1113	228	91	84	53	451/-	
936-37	1538	233	89	72	61	264/-	
937-38	1525	203	76	66	61	198/-	
938-39	1973	265	104	85	72	256/8/-	
939-40	1757	270	114	100	87	401/-	
940-41	1957	293	108	63	59	558/-	
1941-42	2194	466	114	85	76	928/-	74-8-0

3 With a view to enable Merchants getting their articles of food certified, proposals have been submitted to Government in letter No M5-135/42-43 dated 3-7-1942 to reduce the scale of fees for tests in the Laboratory and framing a set of rules for testing and certifying eatable articles kept for sale
orders thereon are awaited

4 Improvements to the Laboratory Building were also effected during the current year and a Refregerator was purchased for the Labpratory

5 During the latter portion of the year 'Malariol' became un-procurable and so the Sanitary Staff along with the temporary gang given for the purpose were utilised for undertaking permanent anti-malaria measures Marshy areas near Vontikoppal and Gokulam, area behind Kukkarahalli tank and the area in front of Sharadavilas High School and behind the Silk Factory were some of the places taken up for this work

Near Saraswathipuram a newly laid out-extension special efforts were made to

prevent heavy breeding of mosquitos at the Pond nearby, by sectionalising the contour of the Pond and by re-aligning and straightening all the channels leading water into the pond and by filling up marshy pits and by cutting ridges, filling pools and thus levelling the place so as to be rid of leading water into the Pond The results have been very satisfactory and the breeding of mosquitos in this area is stated to have considerably gone down It is a matter for gratificatio that the work done here and in Vontikoppal and before Sharada-Vilas High School and Chamundipuram is gratefully appreciated by the people living in these localities

By

37 <u>Other Medical Institutions subsidised from Municipal Funds</u>

There is only one such Institution in the City, viz Sacred Hearts' Dispensary in Mysore South, to which a monthly grant of Rs 40/- is made by the Municipality

39 Vaccination Vaccination continued to be compulsory during the year A total of 32564 Vaccinations were done in the City in the year, as against 10699 in the previous year Of these, 8235 were primary and 24329 revaccinations The number of successful cases among the primary vaccinations was 7407 during the year, as against 4830 in the previous year The Municipality maintained 4 Vaccinators, 2 Males and 2 females In addition to the permanent vaccinators, 4 Sub Registrars of Births and Deaths, who were - trained in vaccination, also attended to the vaccination work during the year

These officials are at present directly recruited and they have no chances of promotion as they are not eligible for the post of Assistant Sanitary Inspecor nor can they get promotion vacancies in the other departments of the Municipality The Health Officer also feels that these persons would be

much more useful and efficient, if we could replace these vaccinators and Sub-Registrars of Births and Deaths by trained Assistant Sanitary Inspectors who could in addition to being vaccinators or Sub-Registrars be used also for Health Propoganda, general sanitary work etc They could also be used to do special amelioration work in the Sweepers' colonies, Adikarnataka colonies &c Proposals in this connection put up before the Council were not approved in and in the form put in, the Council resolved as under

573 The Health Officer's Note in regard to the question of replacing half the present number of Vaccinators and Sub-Registrars of Births and Deaths by trained Assistant Sanitary Inspectors and the Health Committee's Resolution recommending sanction to the proposal (Deferred subject)

xx xx xx

Mr Sitaramiah proposed and Mr Mariappa seconded that the note in the present form cannot be supported Votes being taken the proposition was lost, 21 for and 2 against

Further proposals are again being put up for reconsideration

44 <u>Avenues</u> The avenues in the Municipality were looked after by the special staff employed for the purpose, under the supervision of the Municipal Engineer

A great number of ugly trees and plantings were removed and replaced by new ones during the year 1160 avenue plants were also planted in the year All avenue trees in the City have been numbered and the Register of Avenue trees brought up-to date

An avenue nursery is being raised in the Municipal Farm in order to make available from our own Farm all the plants required for the avenues of the City

B

45 Fairs and Festivals A sum of Rs 9407 was spent during the year, as against Rs 7864 in the previous year The increased expenditure was mainly due to the Royal Marriages in June 1941 having been booked in the current year

B

F Public Instruction

47 The Municipal Council ceased to be the Local Education Authority from 1941-42, since the control over these schools was made over to the Education Department on 1st July, 1941, in accordance with Government Order No E 4884-98/Edn 55-40-19 dated 24-6-1941

G Contributions and Grants-in-Aid

48 Public Libraries and Reading Rooms The Municipality contributed during the year a sum of Rs 560/- for five Libraries and Reading Rooms, and a sum of Rs 625/- for (5) Ladies' Institutions doing Literary and Social work There is a proposal for opening six more Reading Rooms and Libraries at the cost of of the Municipality in several mohallas in the City, during the current year, and action has already been taken in the matter

The University/Literacy Council has been assisting the Municipality in its endeavour to increase the number of public libraries and Reading Rooms

Back

Miscellaneous

49 Interest on debts A sum of Rs 24,428 was paid during the year on this account

B

I Public Debt

50 Repayment of Loans A sum of Rs 28,000 was paid towards Principal and the balance of loan at the end of the year was Rs 7,68,000

4 Meetings and attendance The Municipal Council held 12 ordinary, 9 adjourned and 13 special meetings during the year. The main items of business for consideration at the special meetings were (1) ~~for~~ sending condolences in connection with the sad demise of the great and national poet and philosopher Dr Rabindranath Tagore (2) consideration of resolutions tabled by Municipal Councillors regarding (i) power to elect a President (ii) appointing a Committee to propose staff reorganisation and amendments to existing rules re powers of committees etc. (iii) presenting a civic address to Srijit H Siddiah, B A ,LL B and (iv) regarding the ruling given by the President in the matter of the above, (3) selection of candidates for appointment as Revenue Officer and as Sub Engineer, (4) Acquisition of site No 69 in Krishnaraja Mohalla (5) Election of Vice-President (6) Considering A R P. scheme introduced into the City (7) Considering the opening of control shops in connection with the rise in prices of food-stuffs (8) Reviewing administration report for 40-41 and the

Budget for the year 1942-43 and (9) Considering the amendment of rule 5(b) of the Rules, under Chapter II of the Rules & Bye-laws

Appendix I shows the number of meetings held and the average attendance of the members at the meetings.

KSR

6 Houses - Appendix-III-furnishes-the-number of terraced and other houses in the City during the year under report

There was a noticeable increase in the number of terraced houses during the year, by 998, while the number of tiled and thatched houses decreased by 564 and 190 respectively. The total number of houses in the City at the end of the year under report was 22,698 as against 22,454 at the end of the previous year

The question of the removal of thatched houses and the construction of tiled houses in lieu thereof is systematically taken up and pursued by issue of notices etc. Regarding vacant sites, in respect of all vacant sites given by the Trust Board since 1918, notices are being issued and the sites resumed if houses are not constructed It is only in respect of sites given prior to that date wherein no provision for resumption was being made that the difficulty has arisen and several sites in the City are lying unbuilt The question of what to do in these cases will be examined especially as these vacant sites are a nuisance and have practically become the rubbish dump and in a few instances they have become public latrines.

7 Working of Committees

As prescribed in the bye-laws, Committees in this Municipality are elected twice a year, once for the first half of the year and again for the second half of the year. The names of members are noted in Appendix IV.

The number of meetings held by these Committees is as follows

		No of meetings
1	Managing Committee	16
2	Works Committee	18
3	Health Committee	14
4.	Town Hall Committee	8
5	Audit Committee	12
6	Legal Committee	9

Appendix IV shows the number of meetings held by each Committee and also the average attendance of members

KSR

10 Assessment and taxation The general revison of assessment completed in 1940-41 is still in force, the same being revised from time to time in accordance with standing orders in respect of new constructions, alterations to existing buildings etc on mutations sanctioned from time to time

These mutations are made by the Revenue Officer and are subject to appeal 819 mutations were made in the year and 72 appeals were filed. All were disposed of, the assessment being confirmed in 29 cases and reduced in 43 cases

KSR

Paras 18 & 19 Grants and Contributions A sum of Rs 15,250 was received on this account during the year under report as against Rs 11,400 during the previous year This sum comprises of the following items

1. Pensionary contribution received from the India Government on account of the loan of the services of Mr M L Narahari Rao. Rs. 276

2	Amount received from the City Improvement Trust Board, Mysore on account of tank loan instalment	6,400
3	-do- Mandy drainage loan	5,000
4	Plague and anti-rat campaign charges received from Government.	3,574
	(This represents the contribution received for two years, i e 40-41 and 41-42, as no contribution was received in 40-41)	
	Total Rs	15,250

KSR

E 20 Miscellaneous. The receipts under this head were Rs.15,407 as against Rs. 803 in the previous year The abnormal increase is due mainly to the receipt of mileage cess due for the years from 1937-38 and instalments due towards the sale proceeds of model houses sold to Municipal employees and others. The details for Rs. 15,407 are given below

(i)	Recoveries on account of service rendered to Government Departments etc .	Rs 2,761
(ii)	Refunds and Recoveries on account of Court costs etc --- ...	2,205
(iii)	Arrears of mileage cess	9,556
(iv)	Instalments on model houses	885
	Rs.	15,407

KSR

22. Collection The collection of assessed taxes was in charge of the Revenue Officer under whose supervision the Octroi Department and Tolls also continued during the year The Revenue Officer was also in direct charge of the collection of market revenue The Vice-President was in charge of the Water Revenue Section, Hackney Carriage Section and the Municipal Sewage Farm, except for a few months when the Revenue Officer was in charge

The expenditure incurred during the year under report towards collection charges of assessed taxes amounted to Rs 43,03 as against Rs. 40,894 in the previous year The increase in expenditure under this head is mainly due to the payment of Dearness Allowance to the employees

KSR.

36 Indigenous Hospitals, Vaidyasalas and Davakhanas

The number of grant-in-aid indigenous and allopathic medical institutions was 16 during the year as against 14 in the previous year

Municipal Ayurvedic Dispensary The Ayurvedic Dispensary in Krishnaraja Mohalla was maintained by the Municipality during the year The number of patients treated in that dispensary was 95,145 as against 28,710 in the previous year

As considerable difficulty was observed in practice to change the Pandits and Compounders attached to the indigenous hospital maintained by the Municipality, the Municipal Council requested sanction of Government to revise the scales of pay of the Pandit and Compounder of the above dispensary so as to be the same as the scales prevailing in the Ayurvedic College and Hospital and also submitted proposals for interchange of Pandits and Compunders between these two institutions and in their Order No L 4258-60/Ml 11-42-39

KSR

Your most obedient servant,

Nagaraja Rao

PRESIDENT 19/1

dated 22nd October 1942 Government was pleased to approve of these proposals

Grants-in-aid Vaidyasalas and Davakhanas Grant to 15 Hakims and Vaidyas practising in the City is being paid for out of Municipal Funds. These institutions were till now being inspected by the Health Officer who was however only an allopathic doctor. With a view to make the inspections more technical and effective, Government was requested to permit periodical inspections of these institutions by the Principal of the Ayurvedic and Unani College and the Superintendents of the Government Unani Hospital. This was sanctioned by Government in Government Order No 778-9/Mus 350-40. Dated 4-11-1941 and inspections are now being made by these technical officers periodically. These inspections have proved quite useful in improving the usefulness of these institutions.

The question of standardising the scales of pay of the

the Ayurvedic Pandits and Unani Hakims was under the consideration of Government and the Government in their Order No L 2845-66/Mt.L B 74-40-6 dated 9th September 1942, passed orders revising the scales of pay of these classes of Medical Practitioners at Rs 30-1-40 per mensem so as to attract the right type of men with proper qualifications and also giving these practitioners a peon on Rs 8/- per mensem and an allowance of Rs. 12/- p m for medical charges

At present there are 17 grant-in-aid institutions in the City, of which 12 are Ayurvedic and 5 Unani dispensaries In giving effect to the Government Order the Municipality would incur an additional cost of Rs 4,590 per annum. The Government have been requested to give a subvention of Rs 4,000/- to the Municipality just as they propose to do to the District Boards in order to effect the above changes and their orders are awaited

The amount paid as grants to the several indigenous and allo-

Most obedient servant,
B Raghavendra
PRESIDENT, 19/2

allopathic medical institutions during the year was Rs. 5,234 as against Rs 4,927 in the previous year

To go into the question of regularising the payment of grants to the different classes of institutions in the City and to frame a set of rules thereto the Municipal Council in their Resolution No. 587 dated 31st May 1941 appointed a sub committee consisting of eight members

The Sub Committee held seven meetings during the year. The main items of business transacted by the Committee are - Reviewing the reports and returns of Samajas and sadanas, inspection of physical culture institutes, examining the question of standardising the payments of grants to indigenous institutions and opening of fresh Institutions and payment of grant in aid to certain Reading Rooms and Libraries opened to the public in the City. They however framed preliminary rules laying down the procedure for considering the payment of grant-in-aid to the above institutions and the framing of a final set of rules is engaging attention.

KSR

38. Plague, cholera and other charges A sum of Rs. 7,483/- was spent, as detailed below, during the year under report under this head The Government have given a grant of Rs 1,805 for 1941-42 and Rs. 1,770/- on account of arrears of contribution for 1940-41

1	contribution for maintenance of E D Hospital	. Rs 4,000
2	plague charges	1,434
3	anti-rat campaign charges	2,044
4.	cholera charges	5

41 Registration of Births and Deaths Births 5,522 births were registered during the year as against 5,499 in the previous year The ratio was 36 46 per mille of population as against 36 32 in the previous year

Deaths 3,356 deaths were registered during the year as against 3,300 in the year 1940-41, bearing a ratio of 21 48 per mille of population as against 22 38 in the previous year

Infantile mortality 681 infants under one year of age died during the year bearing a ratio of 123 14 per 1,000 births registered, as compared to 732 in the previous year

Plague There were 5 attacks with 5 deaths from this disease, of which 3 A and 3D were imported ones, as against 7 attacks and 4 deaths in the previous year

Cholera There were no cases of cholera during the year

P T O

year under report

Influenza There were 13 deaths from this disease during the year, as against 37 in the previous year

Small-pox: There were 77 attacks with 20 deaths from small-pox during the year, as against 9 attacks and 2 deaths in the previous year, of which 21 attacks and 6 deaths were imported ones.

KSR

52. Audit ~~and~~ of Accounts and embezzlement The system of pre-audit by the Comptroller's Office staff continued during the year The audit objections raised were mostly objections regarding want of sanction, appropriation etc in respect of ordinary works and payments No serious irregularities were noticed.

No cases of embezzlement were reported during the year

22 Mr Patnam Sreenivasa Setty
23 Mr M R C Basappa
24 Mr T Venkataramanaiya
25 Mr T Narasimha Iyengar B A B L
26 Mr T S Ali Khan
27 Mr Mohamed Khalilullah M A LL B
28 Mr Haji Mir Amiruddin Khuraishi
29 Mr S A Kareem
30 Mr B L Maridandiah
31 Mr F C Devaraja Urs

A casual vacancy occurred in Krishnaraja Mohalla during the year due to the demise of Mr C S Dixit, and Mr T S Rajagopala Iyengar, who was the only candidate for the vacant place, was duly declared as a member to the Municipal Council

I continued to be in charge of the office of the President throughout the year under report

Mr T Mariappa, B A, LL B, was the Vice President till the 2nd January 1942, when he vacated office and Mr P Sitaramiah, B A, B L, was elected as Vice President by the council at its meeting held on 22 12 1941 and he took charge of the office on 15th January 1942

Messrs B Krishniengar, B Sc, B E and S Seshagiri Rao, B Sc, M B B S, D P H, were the Municipal Engineer and the Health Officer, respectively till 11 9 1941 and 2 1 1942 when they were succeeded by Messrs B R Manickam, B L, and T Chandrasekhariah, B A, M B B S, M P H Mr S A Gani who was the Revenue Officer from 1 7 1941 to 5-11 1941 was transferred on promotion as Assistant Commissioner and as a temporary measure he was relieved by Mr S Siddappa, Octroi Superintendent, who remained in charge of the office till 25 12 1941 Mr H C Jambukesvaraiya, Amildar, who was appointed as Revenue Officer of this Municipality, took charge on 25 12 1941 and continued in that office till the end of the year

The appointment of a separate officer of the grade of a Sub Engineer as a Licensing Officer for this Municipality, to assist the Municipal Engineer in controlling the construction of buildings by proper scrutiny of building licenses, etc was sanctioned by Government in their Order No L 2992 96—Ml 11 41 16 dated 1' 10 1941 The officer posted to the place, Mr H G Narasimha Murthi continued as Licensing Officer of this Municipality till the end of the year under, report

Establishment—The following establishments were sanctioned during the year

1 Continuance of the following temporary establishments during 1941–42 —

Compost	Workshop
Cattle Shed	Additional Pipe Line Establishment
Anti malaria	Establishment for Labour in Municipal Farm

G O No L 8559–16/Ml 11 41-36, dated 18th March 1942

2 Continuance of the temporary establishment for departmental collection of the toll during 1941–42

3 Appointment of two telephone attenders on Rs 15 each and a clerk on Rs 25–1-40+5 C A (designated as Town Hall Clerk and Store keeper) in place of Town Hall Mutsaddi on Rs 17 with effect from 1st July 1941

(G O No L 2817–19/Ml 11–41-14, dated 4th October 1941)

4 Appointment of a literate attender on Rs 15 for the Municipal Office Library, for a period of two years from 11th July 1941 sanctioned in G O No L 684–86—Ml 31–40–54 dated 28th July 1941

5 Appointment of a Licensing Officer to the Municipality of the grade of Sub Engineer on Rs 125–10-175+32 C A

(G O No L 2992–96/Ml 11-41–16, dated 11th October 1941)

6 Appointment of an additional watchman on Rs 9 to look after the swimming pond below Kukkarahalli tank for one year

(G O No L 341–42/Ml 11–41–6, dated 17th July 1941)

7 Sanction of an allowance of Rs 5 per mensem to the clerk of the Municipal Office for taking down discussions in Council Meetings and for attending to its circulation among the councillors concerned sanctioned temporarily for a period of six months from 1st May 1942 in G O No L 235-6/Ml 11–41–73 dated 11th July 1942

ADMINISTRATION REPORT

The present establishment particularly in the Head Office, the Engineering Section and the Revenue Section is inadequate, and certain proposals for strengthening this were made In order to make a comprehensive review of the establishment and to scrutinise the additional establishment asked for, the Municipal Council in their Resolution No 123, dated 5–9–1941 appointed a Re organization Sub Committee The committee is still functioning A statement of establishment both executive and ministerial as it stood in 1926 and as it stands now, and an abstract of receipts and expenditure during the same period is enclosed as Appendix, from which it will be seen that while the establishment in all the sections remains the same, the receipts and expenditure have increased nearly three fold and the correspondence has also increased with the result that it is becoming increasingly difficult to maintain a high standard of efficiency in the disposal of work in the Municipal Office

Mr M Shankariah B A, LL B continued to be the Municipal Advocate during the year under report

4 *Meetings and Attendance*—The Municipal Council held 12 ordinary, 9 adjourned and 13 special meetings during the year The main items of business for consideration at the special meetings were (1) sending condolences in connection with the sad demise of the great and national poet and philosopher Dr Rabindranath Tagore, (2) consideration of resolutions tabled by Municipal Councillors regarding (i) power to elect a President (ii) appointing a committee to propose staff reorganisation and amendments to existing rules *re* powers of committees, etc, (iii) presenting a civic address to Srijut H Siddiah, B A, LL B and (iv) regarding the ruling by the President in the matter of the above, (3) selection of candidates for appointment as Revenue Officer and Sub Engineer, (4) Acquisition of site No 69 in Krishnaraja Mohalla, (5) Election of Vice President, (6) Considering the A R P scheme

introduced into the City, (7) Considering the opening of control shops in connection with the rise in prices of food stuffs (8) Reviewing the administration report for 1940 41 and the Budget for the year 1942 43 and (9) Considering the amendment of rule 5 (b) of the Rules, under Chapter II of the Rules and Bye laws

Appendix I shows the number of meetings held and the average attendance of the members at the meetings

During the year under report 80 resolutions in all were tabled by several Municipal Councillors Some of these related to the construction of public baths and latrines children s play grounds, provision of public taps and electric lights in several places and such other amenities to the public of the City Some resolutions related to the amendment of bye laws including powers of the Vice President The question regarding the appointment of the Revenue Officer also came in for discussion in two resolutions

Of these, 11 resolutions were withdrawn after discussion, 4 were dropped on account of the absence of the movers, and 9 were referred to the several executive committees for consideration and framing definite proposals Two resolutions were disallowed under Section 61 (s)

The Council also discussed from time to time the situation arising from the scarcity of food stuffs and the rise in prices and passed resolutions placing their views before the Government

The question of selecting a particular area and converting it to a fully equipped model one with all the civic amenities such as concrete roads complete underground and storm water drains, drinking water taps, sanitary latrines public reading rooms children s play grounds, public baths and public W C s necessary lung spaces, public parks with radio equipment school for children hospital for the sick, rest house for the poor, model houses for the poor, Municipal or a Co operative Bank, etc was also discussed But unfortunately this had to be dropped on account of the very heavy cost of undertaking such a programme now due to the rise in prices of materials

The Council also discussed the question of re opening and clearing up of old wells in the City and sinking new wells in connection with the civil defence measures in the City and on their resolution the Government have been pleased to sanction the grant of a loan of Rs 25,000 free of interest and repayable within a period of not more than 10 years in equal annual instalments for the execution of these works It was also suggested that two wells in each mohalla be undertaken treating these as the first stage of the programme The work of construction of new wells and opening up of old ones is in progress

Another resolution of the Council related to the question of introducing cottage industries such as paper making, extraction of oils, rice pounding, spinning and weaving, etc in the City and this matter is being pursued and is in correspondence with the Director of Industries and Commerce

The villages of Voddarapalya, Kumbarakoppal and Thonachikoppal villages were resolved to be included within the city municipal limits and further action is being taken to give effect to the resolution

5 *Elections* — There was no general election during the year A casual vacancy in the personnel of the Municipal Council occurred due to the demise of Mr C S Dixit but there being only one candidate—Mr T S Rajagopalaiengar—he was duly elected to the Council

6 *Houses* — Appendix III furnishes the number of terraced and other houses in the City during the year under report

There was a noticeable increase 998, in the number of terraced houses during the year while the number of tiled and thatched houses decreased by 564 and 190, respectively The total number of houses in the City at the end of the year under report was 22,698 as against 22 454 at the end of the previous year

The question of the removal of thatched houses and the construction of tiled houses in lieu thereof has been taken up and pursued by issue of notices, etc Regarding vacant sites, in respect of all vacant sites given by the Trust Board since 1918, notices are being systematically issued and the sites resumed if houses are not constructed It is only in respect of sites given prior to that date wherein no provision for resumption was being made that the difficulty has arisen and several sites in the City are lying unbuilt The question of what to do in these cases will be examined especially as these vacant sites are a nuisance and have practically become in the area concerned rubbish dumps and in several instances have become public latrines

7 *Working of Committees*—As prescribed in the bye laws, Committees in this Municipality are elected twice a year, once for the first half of the year and again for the second half of the year The names of members are noted in Appendix IV

The number of meetings held by these Committees is as follows —

		No of meetings
1	Managing Committee	16
2	Works Committee	18
3	Health Committee	14
4	Town Hall Committee	8
5	Audit Committee	12
6	Legal Committee	9

Appendix IV shows the number of meetings held by each committee and also the average attendance of members

2 Besides the Executive and Consultative Committees, the following Sub Committees were created from time to time to go into the questions referred to them and propose suitable measures The number of meetings held by each Committee is noted below —

	Name of Committee		Name of Members	Number of meetings held
1	Sub Committee to scrutinise Octroi Bye laws	1	Mr M S Nanjappa	Six
		2	Mr M R C Basappa Esq	
			Mr S A Kareem	
	(Resolution No 505 dated 20-4-1941)	4	Mr P Sitaramiah	
		5	Mr A Krishna Murthy	
		6	Mr T Mariappa	
		7	Mr E P Nanjappa	
2	Sub Committee to revise table of fares of vehicles	1	Mr M R C Basappa	Two
		2	Mr P Sitaramiah	
		3	Mr T Mariappa	
	(Resolution No 999 dated 27-6-1942)			
3	Sub Committee to carry on regular propaganda work	1	The President	Five
		2	Mr U L Ramachandra Rao	
		3	Mrs B Kameswaramma	
	(Resolution No 531 dated 7 5-1941)	4	Mr P Sitaramiah	
		5	Mr T Mariappa	
		6	Mr Agaram Rangiah	
		7	Mr B Narayanaswamy	
		8	Mr A Krishna Murthy	
		9	Mr T Narasimha Iyengar	
4	Staff Re organization Committee	1	Mr T Venkataramaniah	Six
		2	Mr P Sitaramiah	
	(Resolution No 123 dated 5-9-1941)	3	Mr T Narasimha Iyengar	
		4	Mr A Krishna Murthy	
		5	Mr E P Nanjappa	
5	Sub Committee to frame a set of Rules to regulate the payment of grants to different institutions in the City	1	The President	Ten
		2	Mr S Linganna	
		3	Mr Chowdiah	
		4	Mr F C Devaraj Urs	
	(Resolution No 587 dated 31-5-1941)	5	Mrs B Kameswaramma	
		6	Mr P Sitaramiah	
		7	Mr T Mariappa	
		8	Mr A Krishna Murthy	
6	Advisory Committee to suggest measures for supply of food stuffs	1	The Vice President	No meetings have been held
		2	Mr M R C Basappa	
		3	Mr S Linganna	
	(Resolution No 439 dated 2-1-1942)	4	Mr Maridandiah	
		5	Mr G R Rangaswamiah	
		6	Mr M V Venkataramiah	
		7	Mr P Sitaramiah	
		8	Mr T Mariappa	
7	Sub Committee to render Social service and carry on welfare work in the City	1	Mrs B Kameswaramma	Do
		2	Mr Chowdiah	
		3	Mr G Janardan Naidu	
	(Resolution No 533 dated 29-2-1942)	4	Mr Mohamed Khalilulla	
		5	Mr S Linganna	
		6	Mr P Sitaramiah	
		7	Mr T Mariappa	
		8	Mr Agaram Rangiah	
		9	Mr T Narasimha Iyengar	
		10	Mr A Krishna Murthy	

	Name of Committee		Name of Members	Number of meetings held
8	Sub Committee to bring up specific proposals in the matter of appointing two Welfare officers to look after and safeguard the interest of scavengers employed in the Municipality	1	The Vice President	
		2	Mr M C Mallappa	
		3	The Health Officer (*Convenor*)	
		4	Mr Seshadri	
		5	Mr H S Krishnamurthy Rao	
		6	Mr Maridandiah	
		7	Mr G Janardan Naidu	
		8	Mr Agaram Rangiah	
		9	Mr P Sitaramiah	

8 *Bye laws Rules and Regulations*—No bye laws and rules or amendments thereto were sanctioned by Government during the year under report

The introduction of the following bye laws or amendments to existing ones are under consideration —

(*i*) Amendment to the bye laws relating to the dangerous and offensive trades so as to make provision for reasonable space in firewood depots

(*ii*) Bye laws for prescribing the taking out of a license for bamboo and timber trade in the City

(*iii*) Bye laws for conserving and preventing injury to water supply in wells in Mysore City

(*iv*) Bye laws relating to Ferries

Amendments to bye laws for regulating the dangerous and offensive trades so as to bring the 'Parching of Bengal gram for commercial purposes' under offensive trades, have been sanctioned by Government in the current year, in their Order No L 513 5—Ml 135 41 32 dated 16th July 1942

9 *Fresh Imposts and Taxes, Fees, etc*—The following new tax and impost were levied in the Municipality during the year —

(*a*) Levy of tax on dogs with effect from 1st January 1942 as sanctioned in Government Order No L 9045-46/Ml 57-40-102 dated 26th June 1941

(*b*) Levy of Education Cess of two annas in the rupee on taxes on buildings and lands with effect from 1941-42 as per Government Order No L 1358-71—Edn 195 40 2 dated 16th October 1941

Regarding the latter The Municipal Council have however in their Resolution No 747, dated 12th May 1942 stated that—

The Municipal Council is already paying a sum of Rs 25,000 under the Elementary Education Act of 1930 This Act having been repealed under Section 2 of the new Act this payment could no longer be enforced While according to the old order as per the above Act of 1930 this Municipality was paying Rs 25,000 according to the cess now levied under the Act of 1941, the payment to Government will be Rs 18,600 as per calculations enclosed

The Municipal Council therefore respectfully submits to Government that the levy on account of the new cess will be much less than what the Council is already paying As this cess will act as an additional tax and will be a hardship to the rate payers, the Government may be pleased to continue to accept the Rs 25,000 that this Municipality is now paying in lieu of the cess contemplated and waive the levy of the same in Mysore City area under Section 1 (3) of the new Act, since the Municipality really agrees to pay much more than the proceeds of the new levy

In these circumstances, the Council also requests the Government to issue instructions to the executive to refrain from collecting this cess

Orders on this resolution are awaited In the meanwhile since the levy was under a special Act, the demand for Education Cess for the year 1941 42 has been raised and separate bills issued to the parties pending final orders of Government on the resolution passed

10 *Assessment and Taxation*—The general revision of assessment completed in 1940 41 is still in force, the same being revised from time to time in respect of new constructions, alterations to existing buildings, etc, on mutations sanctioned from time to time

These mutations are made by the Revenue Officer after inspection in each case and are subject to appeal 819 mutations were made in the year Appeal against these orders lie to the president and 72 such appeals were filed All these were disposed of, the assessment being confirmed in 29 cases and reduced in 43 cases

11 *Demand, Collection and Balance*—Appendix V shows the demand, collection and balance of rates and taxes for the year 1941-42

The arrears at the beginning of the year was Rs 1,26,505 and the demand under all heads during the year was Rs 6,23 621 the total demand including arrears being Rs 7,50,126 The collection during the year was Rs 6,67,719 including a remission of Rs 10,132 The balance at the end of the year was Rs 82,407 as against Rs 1,26,505 at the end of the previous year The percentage of total collection under all heads to the total demand was 88 9 as against 85 00 in the previous year The figures of demand, collection and balances for the previous five years is noted below for ready reference —

Year	*Demand including arrears*	*Collection*	*Balance*
	Rs	Ps	Ps
1937–38	7 34 221	5 57 316	1 76 905
1938 39	7 43 593	5 89 344	1 54 249
1939 40	8 09 512	6 25 367	1 84 145
1940–41	8 08 385	6 81 880	1 26 505
1941–42	7 50 126	6 67 719	82 407

It will be seen from the above figures that the arrears this year is the lowest yet on record

Assessed Taxes —The arrears under this head at the beginning of the year under report amounted to Rs 1,26,505 and a sum of Rs 3,31 467 was brought on demand during the year, making a total of Rs 4,57,972 A sum of Rs 3,65,433 was recovered and Rs 10,132 was remitted as irrecoverable Thus the balance at the end of 1941–42 was Rs 82 407 The demand, collection and balance during the last five years is noted below for purposes of reference The collection is a record one for this Municipality, considering that the total demand for collection was less than the previous year Regarding the arrears of Rs 82,407, Rs 35,322 out of this has since been collected The details of the balance are noted below —

Years	*Demand*	*Collection*	*Balance*
	Rs	Rs	Rs
1937–38	4 47 386	2 70 481	1 76 905
1938–39	5 21 749	3 12 087	2 09 662
1939–40	5 32 774	3 40 521	1 92 253
1940–41	5 09 775	3 83 270	1 26 505
1941–42	4 57 972	3 75 565	82 407

Other Items —The demand under other items of revenue other than Octroi, Toll and Assessed Taxes, was Rs 1,06,281 inclusive of arrears, out of which a sum of Rs 1,04,818 was collected during the year leaving a balance of Rs 1,463 as against Rs 1,622 in the previous year Out of this a sum of Rs 626 has since been collected, leaving only a small balance of Rs 837 Of this Rs 700 relates to the old arrears in the Devaraja Market, *i e* arrears prior to 1939–40 which has to be written off and this matter is engaging the attention of the Council There are no arrears out of the demand arising out of 1940 41 and 1941–42 the percentage of collection being 100

12 *Incidence of Taxation* —The incidence of taxation per head based on the population according to the Census of 1941 works up to Rs 4–5–9 as against Rs 4–6–6 in the previous year The difference calls for no remarks

PART II—FINANCIAL POSITION

13 The year opened with a cash balance of Rs 46,147 excluding a sum of Rs 50,207 in the Savings Bank The receipts, and expenditure under all heads amounted to Rs 9,27,097 and Rs 8,77,198, respectively, leaving a closing balance of Rs 96,046 This excludes the sum of Rs 50,392 invested in the Government Savings Bank which remained undrawn

As already stated, there was a marked improvement in collections under all heads, the collections being higher than any of the previous years as seen from the five years figures under the principal heads of revenue noted below —

Year	*Octroi*	*Mohatarfa*	*Total*	*Vehicle tax*	*Water tax*	*Total*
	Rs	Rs	Rs	Ps	Rs	Rs
1937 38	1 66 100	1 72 693	82 927	44 922	97 234	5 63 876
1938–39	1 67 701	2 02 851	69 342	37 006	1 02 747	5 79 647
1939–40	1,72 994	2 06 547	71 181	37 653	1 24 169	6 12 524
1940–41	1 85 697	2 20 213	71 360	41 579	1 43 821	6 62 670
1941–42	1 90 341	2 24 277	73 711	41 053	1 41 401	6 70,783

The demand including arrears was less than that of previous year

Further details regarding these are given in Part III

The following figures show the income from ordinary sources and the ordinary expenditure of the Municipality during the last 5 years —

Year	Income from Ordinary sources Rs	Ordinary expenditure Rs
1937–38	7 46 090	6 61 750
1938–39	7 48 678	7 83 932
1939–40	7 89 313	8 82 049
1940–41	8 34 456	7 44 500
1941–42	8 57 221	7 93 396

It will be seen therefrom that the ordinary income has risen from Rs 7,46,000 to Rs 8,57,000 and during the same period the expenditure has risen from Rs 6,61,000 to Rs 7,93,000 The ordinary receipts during the year under report exceeds the ordinary expenditure by Rs 64,000

The financial position of the Municipality therefore may be considered quite satisfactory There has been also a steady improvement in the income from year to year under assessed taxes, octroi and toll which are the most important items of revenue

The Municipality has also been able to pay off every year a sum of Rs 28,000 towards the loan accounts

PART III—RECEIPTS

A — Municipal Rates and Taxes

14 *Octroi* —The collections under this head were Rs 1 90,300 as against Rs 1,85,697 in the previous year The details of realisations are given in Appendix VIII A The increases are mainly under the following heads —

Cocoanut (dry and fresh)
Sugar
Butter
Musical Goods
Soap
Glassware
Tobacco
Coffee
Tea

The collection under octroi has been the highest on record this year —

	Rs
1937–38	1 66 100
1938–39	1 67 710
1939–40	1 72 991
1940–41	1 85 697
1941–42	1 90 300

Part of the credit for the increase is due to frequent changes in the staff and regular inspections by superior officers

15 *Taxes on Buildings and Lands* —Appendix V gives the particulars of demand and collection under this head

The collections under this head of revenue during the last five years is given below and under this head also the collection this year is the highest on record

The demand, collection and balance during the last five years is noted below —

Year	*Demand* Rs	*Collection* Rs	*Balance* Rs
1937–38	2 44 435	1 38 769	1 05 666
1938–39	2 81 482	1 62 951	1 18 531
1939–40	2 59 723	1 67 407	92 316
1940–41	2 42 596	1 75 580	67 016
1941–42	2 19 983	1 79 137	40 846

The Revenue Officer and his staff have striven hard to secure these results and great credit is due to them

Out of the balance of Rs 40 846, Rs 20,946 has since been collected The arrears still remaining has been classified into cases for which suits have yet to be filed and those in which further action has to be taken Cases of wrong demand are being pursued and mistakes adjusted

B —Realisations under Special Acts

16 *Pounds* —The collections under this head during the year was Rs 1,42[illegible] as against Rs 2,316 The fall in collection is due to the fact that in previous years a special cattle catching gang had been employed and all stray cattle were being caught and impounded The Council however, in their resolution No 539, dated 19 5 1941, resolved to do away with this gang, a small provision being retained for employing a temporary gang during special occasions With the dismissal of this gang, the stray cattle nuisance has increased and repeated complaints are being received especially during the black out period, of cattle sleeping in the centre of our roads and obstructing traffic As the ordinary staff continues to be unable to deal effectively with this stray cattle nuisance, the question of reviving the cattle gang has to be taken up

17 *Public Conveyance s* —1 915 vehicles were licensed during the year, as against 1,834 in the year 1940 41 In licensing the public conveyances, precaution was taken to pass for registering only such of the vehicles as were in good condition

The register of vehicles of animals is being regularly scrutinised to prevent leakage of revenue and all cases wher licenses are not renewed checked up to see that the vehicles or animals concerned are really not in use

C —Revenue derived from Municipal property a id powers apart from taxation

The Revenue derived during the year was Rs 1,44,786 as against Rs 1 54,536 in the previous year and composed mostly of revenue derived from Municipal markets, compost, slaughter houses, the Municipal Farm and other miscellaneous items There is however really no fall as compared to the previous year since last year, *i e*, 1940-41, under markets there was an adjustment of Rs 9 522 of deposits relating to the years 1938 39 and 1939 40 Again recovery of Court costs was being credited to this head in previous years and this is now brought under ' E 3 Refunds and Recoveries The Receipts under " Refunds and Recoveries in 1941 42 is Rs 2,205 while it was only Rs 655 in 1940-41 Under compost, there is a fall of Rs 1,795 as there was not enough demand for this manure during the year under report As against this decrease, there is slight increase under Sewage Farm, Slaughter Houses and License Fees Propaganda work in the city and in the villages is being undertaken to bring home to the ryots the advantage of using compost in these d ys when artificial manures are difficult to obtain The sales have improved latterly

Paras 18 & 19 *Grants and Contributions* —A sum of Rs 15,250 was received on this account during the year under report as against Rs 11,400 during the previous year This sum comprises of the following items —

		Rs
1	Pensionary contribution received from the India Government on account of the loan of the services of Mr M L Narahari Rao	276
2	Amount received from the City Improvement Trust Board Mysore on account of tarring loan instalment	6 400
3	Amount received from the City Improvement Trust Board Mysore on account of Mandy drainage loan	5 000
4	Plague and anti rat campaign charges received from Government (This represents the contribution received for two years *i e* 1940 41 and 1941 42 as no contribution was received in 1940 41)	3 574
	Total	15 250

E 20 *Miscellaneous* —The receipts under this head were Rs 15,407 as against Rs 803 in the previous year The abnormal increase is due mainly to the receipt of mileage cess due for the years from 1937 38 and instalments due towards the sale proceeds of model houses sold to Municipal employees and others, etc The details for Rs 15,407 are given below —

	Rs
(i) Recoveries on account of service rendered to Government Departments etc	2 761
(ii) Refunds and Recoveries on account of Court costs etc	2 205
(iii) Arrears of mileage cess	9 556
(iv) Instalments on model houses	885
Total	15 407

PUBLIC DEBT

21 *Loans*—With a view to make drinking water available to the public in time of emergency if any danger should overtake our Drinking Water System, the Municipal Council resolved (*vide* Resolution No 630 dated 7th March 1942, that all the closed wells in the City be reopened and got cleaned properly and also to sink new wells in suitable places in several mohallas in the City and that the funds required be obtained as an outright grant or at least as a loan from Government free of interest On this, the Government in their Order No 9727 30—Ml 159 41 6, dated 14th April 1942, was pleased to sanction a loan of Rs 25,000 free of interest and repayable within a period of not more than 10 years in equal annual instalments It was also directed that two wells in each mohalla may be undertaken treating them as the first stage in the programme The wells works are in progress and a few are completed A number of old wells have been selected for rennovation and some of these have been and are being rennovated Now that the rainy season is over, considerable progress is expected to be made in the coming months

A sum of Rs 28,000 towards instalment one on the old loans has been paid off during the year Payment of interest on the outstanding debentures are being made as usual on the due dates Our debentures seeing from the transfers effected appear to be getting popular

22 *Collection*—The collection of assessed taxes and water Revenue was in charge of the Revenue Officer under whose supervision the Octroi Department and Tolls also continued during the year The Revenue Officer was also in direct charge of the collection of market revenue The Vice President was in charge of the Water Revenue Section, Hackney Carriage Section and the Municipal Sewage Farm except for a few months when the Revenue Officer was in charge of these also

The expenditure incurred during the year under report towards collection charges of assessed taxes amounted to Rs 43,032 as against Rs 40,894 in the previous year The increase in expenditure under this head is mainly due to the payment of Dearness Allowance to the employees

PART IV--EXPENDITURE

B *Public Safety* 23 *Lighting*—21 new lights were installed during the first half of the year under report at the instance of the Municipality Subsequently however in accordance with the instructions of Government to remove as many lights as possible in order to secure economy especially in Electrical goods, as materials were not available the Municipal Council appointed a committee to go into the question of the lights that have to be removed This committee with the help of the Electric Department went round the whole Town and the total number of lights as per their report disconnected during the year were 268 overhead lights and 53 ornamental ones

There were 1884 gooseneck lights (including flood lights, etc) and 53 ornamental lights in the Mysore City at the end of the year under report

The charges paid to the Electrical Department during the year amounted to Rs 49,726 as against Rs 51,774 in the previous year, the reduction being due to the reduction in the number of lights during the year

Fire Protection—Only one case of fire was reported during the year, the cost incurred on this account being Rs 25

As part of the A R P measure in the City, 139 of our gangmen have been trained in Rescue and Demolition works With a view to improve arrangements of fire fighting, several hydrants in the Town which were too near each other were removed and spread over the other portions of the City, so that we have a better distribution of these hydrants

The question of constructing static tanks to serve both for fire fighting purposes and as balancing tanks for water supply distribution is under consideration

24 *Rewards for destruction of wild animals, snakes, dogs, etc*—The expenditure incurred under this head during the year was Rs 98 as against Rs 217 in the previous year

1789 stray dogs were destroyed during the year, as against 2852 in the previous year

Rabies and Dog Destruction—The bye laws relating to the levy of tax on dogs came into effect from 1st January 1942

403 dogs were licensed during the year and 1,789 stray dogs were destroyed during the year as against 2,852 in the previous year The destruction is being done by the use of strychnine This is no doubt an unsatisfactory method, but as dog catchers are not available in spite of efforts to procure them, it has not been possible to make use of other methods for destroying these animals There is an electric lethal chamber constructed for this purpose, but it is not being used so far

25 *Civil Works carried out by the Public Works Department*—As the Municipality has got its own Engineering Staff, no civil works relating to the Municipality are being done by the Public Works Department The works relating to Water Supply however are as usual got done through the Vani Vilas Water Works, which is under the Department of Public Health

L 26 *Public Works carried out by Civil Department*—The expenditure under this head during the year amounted to Rs 1,49 841 as against Rs 1,05,659 during the previous year

27 *Roads*—Tarring of roads Most of the roads which had been tarred about five or six years back were remaining without a paint coat and the surfaces had deteriorated very badly with plenty of pits of various sizes and depths all over To remedy this a list of all tarred roads was made and their condition was thoroughly investigated such of the roads which had become absolutely bad were macadamised, removing the tarred surface and using the picked stuff for the cross streets By macadamising these roads, the surfaces of many of the bad roads were improved For improving the existing tarred roads, an estimate was prepared which amounted to Rs 90,000 This was proposed to be spread over a period of three years and as a first measure, a portion of the estimate amounting to Rs 34 500 was got sanctioned This estimate provided for pit filling and for painting such of the portions as were subjected to very heavy traffic The balance of the estimate will be worked out during the course of next two years, and it is expected to improve all the tarred roads in the City within this three year period

Metal Roads—Metal roads have been divided into two classes, those metalled with granite metal and those with field metal Many of the granite metalled roads require petty repairs and blindage These were all attended to and a good many of new granite metal roads newly constructed during the year

With regard to field metal roads a programme for field metalling of the interior roads in the City has been drawn and followed and while selecting roads for this purpose special care was taken to see that roads in congested areas which would get badly slushy during rains were first attended to

In the year under report, 204 furlongs of roads (new roads) have been constructed A further programme providing for about 300 furlongs of road during the year is under operation

With regard to blindage of these roads, sand was being got formerly from outside City paying a high rate During the current year however the sand coming in the channels from the Doddakere, Kukkarahalli tank and Subbarayanakere areas is being utilised for the blindage after cleaning and screening properly This serves a double purpose, *viz*, the desilting of the channels and getting good sand for blindage for roads and this has also resulted in very large savings to the municipality

Similarly with regard to gravel Gravel was being obtained from contractors paying a very high rate (12 annas per C yard) During the current year, good potential gravel quarries in and around the City have been marked out and gravel for which we were formerly paying 12 annas per cubic yard is now being got from these quarries these unsightly areas thus being levelled and made presentable The cost of excavation works out only to between 2 and 3 annasper cubic yard By merely getting gravel and sand from the drains and ridges in the City the Municipality has been able to save a sum of over Rs 6 500 during the year as calculated very roughly from the paid bills The savings are actually much more

Foot paths—Most of the foot paths in the City were badly neglected with the result that many people preferred to use the roads and not the foot paths as the foot paths were not usable An intensive drive was therefore undertaken for improving these foot paths by filling up ruts, cutting ridges and blindaging with sand or gravel as the case may be Gangs for every mohalla were employed for this purpose and most of the foot paths have now been got to standard This work is being pushed on and action is also being taken to keep the foot paths always trim and usable

28 *Drains*—During the year, the storm water drainage in all the mohallas was investigated and it was found that during every rain, several drains surplussed and water overflowed on the roads, and this was due to—

(1) want of capacity in drains in certain areas
(2) choking up of several culverts
(3) filling up in many instances of check drains and shoulder drains

With regard to (1) above action has been taken to increase the capacity of the storm water drains in the worst areas, e g , Gurukar Devannna Street

With regard to (2) an intensive culvert programme has been undertaken Forty culverts were constructed during the year under report and 44 more are being constructed this year

Regarding (3) special gangs were employed in all the mohallas for clearing side and check drains so as to allow storm water to flow freely

In this connection it may be observed that in several areas in the City, the old cement drains had been closed up and in several other cases they required repairs badly Action is being taken to open out these drains wherever necessary and to repair them It is hoped that with the completion of the current programme, the stagnation of water especially in the lowest portions of the City would be avoided

29 *Water Supply and Maintenance*—The water supply distribution in Mysore City is under the control of the Sanitary Engineer and he alone attends also to all water supply distribution works irrespective of the cost although the entire charges are paid for by the Municipality so that all estimates, etc , for improvements to the distribution, putting up of public taps, putting new sub mains are made by him sanctioned by the Municipality and sent to him for execution and work executed by him The procedure is for the estimates to be countersigned by the Municipality and funds being placed at the disposal of the Sanitary Engineer for the execution of the work The present procedure involves delay and unnecessary correspondence and accordingly the question of amending the procedure suitably has been placed before Government Owing to the present procedure requiring the Municipality to deposit in advance with the Sanitary Engineer, estimated cost of works, a very large amount, *viz* , Rs 62,833 had been held up at the beginning of the year (1st July 1941) with the Sanitary Engineer The statement of estimates in respect of which moneys had been placed at the disposal of the Sanitary Engineer was thereupon carefully reviewed and that Officer addressed to adjust these long outstanding items and in respect of works which had not yet been taken up although funds were deposited long ago to take up and complete these works very early Continuous action is now being taken to get these estimates worked out and in cases of those works that have been completed, to get completion reports and get also refund of the balance, if any outstanding at our credit out of the amount placed in advance at the disposal of the Sanitary Engineer The entire procedure as already stated is very cumbersome and involves much unnecessary correspondence and accounting and requires to be suitably modified

During the year, the laying of additional submains costing Rs 13 829 have been sanctioned and 5 fresh taps have been given The outstandings which was Rs 62,833 with the Sanitary Engineer at the beginning of the year was reduced to Rs 54 070 at the end of the year in spite of a sum of Rs 13,829 having been deposited during the year in respect of works sanctioned Thus the total amount outstanding with the Sanitary Engineer was Rs 67 899 at the end of the year

Action has also been taken to request the Sanitary Engineer to send to the Municipal Stores dismantled materials in cases where works involved such dismantling

30 *Buildings*—A consolidated and comprehensive list of Municipal buildings has been drawn up and provision has been made this year for the amounts required for the annual Maintenance of these buildings including special repairs in respect of all those buildings, which badly required repairs

The system of having our own gangs to attend to white and colour washing and petty repairs to buildings is being tried in respect of the Municipal Office buildings for which an annual charge of Rs 4,000 has been provided for This system has worked very well and it is proposed to have a maintenance gang for white and colour washing and petty repairs for all the Municipal buildings

A trained electrical apprentice was also employed during the current year to attend to all the electrical installations of the Municipality and similarly masons and technicians required were employed in suitable gangs for attending to petty works This procedure has worked very satisfactorily and has resulted in large savings while at the same time ensuring prompt and efficient service to the Municipality

Many improvements were effected in the Municipal Office buildings amongst the important of which may be mentioned (1) Improvements to the Revenue Section by putting up of counters, etc (2) improvements to the water section, (3) improvements to the Health Section, (4) shifting of the Council Hall, (5) improvements to the Councillors Room adjacent to the Vice President s room and the Revenue Officer s room (6) putting up of an additional motor shed and (7) improving the grounds around the Municipal Office

One of the most important improvements made in the office buildings was the shifting of the Council Hall to the rooms at the southern end of the building formerly occupied by the Municipal Engineering and the Audit sections The change was necessitated by the fact that the Council Hall was too small and could not also accommodate visitors The new hall was fitted up and the first meeting was held therein on the 26th September 1941

To this Council Hall, His Highness the Maharaja was graciously pleased to sanction the request of the Council for presenting a full sized oil painting and in their letter No G T 1313, dated 4th December 1941, *vide* Resolution No 363 dated 29th November 1941, the Council conveyed its loyal and grateful thanks for this munificent gift

The Council also arranged for the unveiling of the portrait of His Highness the Maharaja and at their request Mr T Subrahmanya B A B L, Advocate, and the President of the Mysore Congress performed the unveiling ceremony of the Portrait in the new Council Hall in the presence of a large gathering of officers and non officials in this City, the unveiling ceremony having been arranged in a manner befitting the occasion The function was universally held to be a very unique one and took place amidst the profoundest manifestation of the loyalty, the gratitude of the Council to His Highness the Maharaja for the gracious presentation of the beautiful full sized portrait, being also given expression to at the meeting

Construction of Model Houses for the poor —With a view to extend the activities of the Trust Board and the Palace and Narasimharaja Building Funds in the matter of providing poor houses in this City the Municipal Council resolved to set apart Rs 10 000 for the construction of model houses and to start the construction of the first set of houses in Krishnarajavanam Proposals were also submitted to Government for the formation of a fund for this purpose and to name it "The Mysore Municipality Model Houses Fund, the accounts thereof being incorporated in the municipal accounts and the balance of the fund consisting of contributions made annually by the Municipality for the construction of fresh houses and the sale proceeds of the houses built out of the funds During the year, the construction of seven such model houses were started in Krishnarajavanam according to an improved type design This design provided sufficient accommodation for a middle class family and has a terraced roof over the entire area unlike the model houses built in Srinivasan and Rajaram Agrahars These houses are provided with thick and substantial walls with terraced roof and the Chejja projection in front affords very great comfort

Construction of Bus Shelters — Several private gentlemen have come forward with contributions for providing bus shelters and stone benches One bus shelter was constructed entirely out of reinforced cement concrete at Vontikoppal in front of Bombay Anand Bhavan Another has since been constructed in front of Krishna rajendra Hospital by the side of Sayyaji Rao Road Two are being put up in the Bus Stand Stone benches for people to wait for buses and to hear radio transmissions were also provided in the Town Hall compound, Subbarayanakere and on the foot path of Irwin Road For Bus Shelter at Vontikoppal and near Krishnarajendra Hospital, Rao Saheb Mr Papayya Chetty of Madras has contributed and our grateful thanks are due to him The stone benches are the contributions of Mr P N Sangappa, Merchant, Mysore, who has offered to pay for as many stone benches as may be necessary to be put up all over the City provided the Municipality meets the other half of the cost

Burial Grounds—Considerable improvements to the several cremation and burial grounds have been effected during the year amongst the important of which may be mentioned the improvement of the bath rooms near the Brahmin cremation ground and enclosing the same by means of a compound wall, provision of hot water facilities in the Hindu cremation ground, formation of roads and demarshing the area here and the construction of a good road to the burial ground at Joduthenginamara and Vontikoppal coupled with other improvements in these areas The bath room at Joduthenginamara was also given special attention and was got enclosed with a good compound wall Two watchmen have been appointed to guard the ground about Joduthenginamara and good and useful plants have been planted

Public Baths and Urinals—During the year three public baths were constructed, one in Adikarnatakapuram, one in Padavarahalli and the third in Madigageri These public baths are according to a new design which provides for sinking a well, fixing up of a pump and overhead tank etc, in order to have independent water supply both of economising filtered water and also not to depend upon city water supply They consist of baths wash platforms and water closets constructed all in one pit

These public baths have been found to be very useful and several more are under construction, amongst the most important of which may be mentioned, the two public baths in Sublarayanakere The construction of the public bath proposed to be put up in the Soppinakola street and at Asola Road and near Ediga could not be taken up as the sites selected had not yet been handed over, the acquisition proceedings being in various stages of progress

31 *Compensation*—The work connected with the acquisition of properties for the improvement of the City is attended to by the City Improvement Trust Board

In order to assist the activities of the Board in improving the sanitation of the City, especially in slum areas, a regular programme of slum clearance has been drawn up and is being followed, and the Municipality has also agreed to contribute to the work In pursuance of this a few proposals have already been sent to the Trust Board The following are some of the important ones —

(1) Acquisition of lands behind model houses
(2) Acquisition of lands behind Amble Anniah Pandit s Choultry
(3) Further acquisition of houses in Bestageri

E *Public Health and Convenience 32—Conservancy*—The Health Officer was in direct control of the Health Department of the Municipality during the year as before and conservancy arrangements were satisfactorily attended to under his supervision with the help of the subordinate staff The public health of the Municipality was on the whole quite good

The number of births this year was more and the deaths less than the previous year and the percentage of infant mortality was also less than the previous year

Hotels and Eating Houses—The following business concerns which conformed fairly to the Municipal Act and Bye laws were licensed during the year

Hotels	25
Coffee Clubs	67
Bakeries	13
Aerated water factories	20
Sweetmeat shops	169
Private meat fish stalls	28
Dangerous and offensive trades	268
Hair cutting saloons	158

The routine inspections of the above trades were carried on as usual by the departmental officers

The Health officer reports that it cannot be said that with the exception of a few the general standard of these is very high He considers that if the municipality starts constructing hotels and restaurants of different designs here and there all over the City to serve as models ultimately it may be possible to specify the designs that has to be adopted for any private hotel or restaurant

The licensing of hotels, coffee clubs bakeries, etc, was done carefully in conformity with the rules prescribed in this behalf and wherever necessary prosecutions

were launched The scope of work in the Health Office Laboratory was also increased during the current year as could be seen from the statistics noted below —

COMPARATIVE STATEMENT FOR THE LAST EIGHT YEARS 1 7 34 TO 1 7 1942

Year	Total samples examined	Samples of foods	Samples found to be adulterated	Cases prosecuted	Cases convicted	Fines	Fees
1	2	3	4	5	6	7	8
						Rs	Rs
1934-35	4 58	125	58	42	32	311	
1935-36	1 113	228	91	84	53	451	
1936-37	1 538	233	89	72	61	264	
1937-38	1 525	203	76	66	61	198	
1938-39	1 973	265	104	85	72	256 8 0	
1939-40	1 757	270	114	100	87	401	
1940-41	1 957	293	108	63	59	558	
1941-42	2 194	466	114	85	76	928	74-8-0

3 With a view to enable merchants getting their articles of food, certified proposals have been submitted to Government in letter No M 5 135—42-43 dated 3 7 1942 to reduce the scale of fees for tests in the Laboratory and framing a set of rules for testing and certifying eatable articles kept for sale Orders thereon are awaited

4 Improvements to the Laboratory Building were also effected during the current year and a Refrigerator was purchased for the Laboratory

Anti malaria Work in the City—The staff consisting of 18 fieldmen and two Assistant Sanitary Inspectors worked under the direct supervision and instructions of the Health Officer carrying on mosquito control measures such as —

1 Treating regularly all the breeding places within City Municipal limits with malarial once in a week

2 Spraying of Paris Green mixture in private gardens and walls

3 Stocking of larvicidal fish in ponds, pools, wells, etc, to check anepheline breeding

4 Draining off stagnant water by cutting drains, filling up pits and putting jelly drains wherever necessary

5 Removal of rank vegetation in tanks and

6 Putrifying water wherever necessary

In addition to these anti malarial works, spraying of Pyrocide 20 in the Body Guard Lines was supervised twice a week as per Director of Public Health s suggestion, by one of the Assistant Sanitary Inspectors who is in charge of the area

The monthly statements of larvæ, and adult collections were maintained and submitted to the Superintendent, Bureau of Malariology

The annual spleen survey of 1942, of the City, was conducted in the month of July in 20 Primary Schools by the Malaria Health Officer, deputed by the Health Department, and out of 2 592 boys and girls that were examined, 45 local and 28 imported cases of enlarged spleen were recorded giving a spleen rate of 1 9 as against 3 5 of last year

5 During the latter portion of the year 'Malariol' became un procurable and so the Sanitary Staff along with the temporary gang given for the purpose were utilised for undertaking permanent anti malaria measures Marshy areas near Vontikoppal and Gokulam area behind Kukkarahalli tank and the area in front of Sharadavilas High School and behind the Silk Factory were some of the places taken up for this work

Near Saraswathipuram, a newly laid out extension, special efforts were made to prevent heavy breeding of mosquitos at the Pond nearby, by sectionalising the contour of the Pond and by re aligning and straightening all the channels leading water into the pond and by filling up marshy pits and by cutting ridges, filling pools and thus levelling the place so as to be rid of leading water into the pond The results have been very satisfactory and the breeding of mosquitos in this area is stated to have considerably gone down It is a matter for gratification that the work done here and in Vontikoppal and before Sharada Vilas High School and Chamundipuram is gratefully appreciated by the people living in these localities

33 *Sanitary Progress and Defects—Town Planning* —The work of Town planning in this City is done by the City Improvement Trust Board, supplemented by contributions from the Municipality

Certain objectionable trades like power looms (which are always noisy) and dyeing factories (which create a bad smell) and large sized mills (which give rise to dust and noise) have been allowed within residential areas for a number of years The Municipality started taking action during the year to have these trades removed to the industrial suburb Owing to the difficulty in obtaining building materials at the present time, it was difficult to enforce the Law too strictly The traders have, however been given to understand distinctly that they must hurry up to shift their trades to the industrial suburbs and some have already taken action to do so As the area that is allowed for the industrial suburb has been found to be very small to accommodate all these various factories the question of opening another suburb has been taken up and a suitable area has been selected towards the West of the City of Mysore on the Hunsur Road

Housing of Sweepers etc —The Municipality has undertaken the housing of sweepers in Sanitary quarters, from year to year During the year under report, 3 sets of 18 houses were completed A provision of Rs 5,000 has been made during the current year for building more quarters for our sweepers

Several of the sweepers having expressed their desire to have their own buildings proposals are under consideration for building a set of sweepers quarters to be sold to them on instalment basis

Overcrowding and Slum Clearance —In order to prevent overcrowding and promote the clearance of slum areas the Municipal Council have requested the City Improvement Trust Board to acquire properties in Adam Khan Masjid Street and Besthageri A provision of Rs 15,000 has also been made in the Budget for 1942 43, for construction of sanitary Houses to the poor

The Municipal Council also sanctioned small estimates for levelling mounds and filling up hallas in various portions of the City with a view to improve the sanitary condition of the same Considerable attention was also paid to open out storm water drains and to construct new drains in order to improve the drainage for the City Some of the important sanitary and drainage works executed are noted below —

DRAIN WORKS DONE BY CONTRIBUTION FROM THE MUNICIPALITY

1 Construction of a Storm Water drain along Sayyaji Rao Road beyond Bus Terminus
2 Laying 7 inches underground Sewage lines for giving house connections in block No 13
3 Laying submain in Vyasaraja Mutt Compound
4 Construction of storm water drain across Ramanuja Road (continuation of Chavady Street)
5 Improving the storm water drain at the northern side of Vanivilas Road from Chamundeswari Road to Vanivilas Milk Centre
6 Constructing Storm water drain at the Southern side of Gurukar Devanna Street
7 Constructing side stone storm water drain along the southern side of Gurukar Devanna Street from Thyagaraja Road up to the Junction of Ramanuja Road

Works taken up for levelling mounds and filling up hallas in the City

1 Levelling and forming area opposite to Sharada Vilas High School in Krishnaraja vanam
2 Filling up of pools pits scours and draining the area by the side of Padavarahalli extension and Bhoodevi Farm
3 Levelling and forming the berms towards the west of Gokatte in Kannegowdanakoppal
4 Forming timber yard and roads by the side of Sacred Hearts Dispensary in Manantoddy extension
5 Levelling and forming the area opposite and to the south of Gokulam including filling the halla here
6 Levelling and forming the area behind Kukkarahalli tank
7 Filling the old wide halla in Old Agrahar
8 Filling and forming and draining the area to the east of Padavarahalli
9 Filling pits cutting mounds etc and levelling and draining the area by the side of Saraswathipuram

Amenities to Sweepers, Scavengers, etc —One of the most important amenities the Mysore Municipal Council is providing for, is the formation of a Stores Society for making food stuffs available at cheap rates specially to their poorer employees such as scavengers, sweepers, labourers, etc

It was resolved at a special meeting of the Municipal Council, Mysore City, on 7th May 1941, that a departmental society both of credit and of stores type be started exclusively for the benefit of the scavengers and the municipal staff A Sub Committee was accordingly constituted for drafting a report in the matter

The draft bye laws were approved by the Committee on 12th September 1941 and statutory meeting of the sweepers Municipal Councillors and the municipal staff was held on 17th September 1941 The Municipal Council also sanctioned Rs 500 as an outright grant towards the establishment necessary for the management of the Stores

The bye laws were approved and the Stores registered by the Assistant Registrar of Co operative Societies on 21st December 1941 and the sanction of Government was obtained in the matter

Necessary action was taken to start the Stores very early and on 19th October 1942 the Stores started work

Ever since its commencement, the Stores has been catering to the needs of the Municipal and Trust Board employees, and essential articles of provision including fuel are stocked and sold to members at reasonable rates At present, there are 332 members on the roll

A creche has been started in the Sweepers Colony near Adikarnatakapura and Public Baths providing for bathing places also constructed

Adult literacy classes in all sweepers areas have been started A sum of Rs 25 is being given monthly to the Harijan Sevak Sangha for propaganda work and for running a Tamil class

On the occasion of the marriage in the Royal Family, the Council provided Rs 1,000 for giving uniforms to these sweepers and scavengers Every attempt is being made to provide all facilities to this class of people Attempts are being made also for suitably housing these people

34 *Local Fund Dispensaries*—The number of Local Fund Dispensaries in the City continued to be 7 as in the previous year The number of patients treated in these dispensaries was 4,11,424 as against 3,12,892

Itinerant Dispensary—The need for an itinerant dispensary in the Mysore City has been keenly felt and in connection with the shifting of the Municipal Dispensary at Narasimharaja Mohalla after locating in lieu thereof a dispensary run by the Sacred Heart Mission the location of one with the Municipal Office as its head quarters was suggested But as the Sacred Heart Mission later on pleaded incon venience the proposal was given up The Health Officer however feels that if an assistant is given to him, and this assistant is a medical man, this officer can work generally as his gazetted assistant and also run the itinerant dispensary Govern ment has since been addressed for the purchase of a van for locating a mobile dis pensary, and sanction has also been requested for the necessary staff for the dispensary including a Driver and a Cleaner for the above The Senior Surgeon has also been addressed to kindly obtain sanction of Government for starting the dispensary and for meeting as usual, the cost of the Doctor and Europe medicines

35 *Midwives and Maternity*—There were 7 midwives during the year paid for by the Municipality The total number of labour cases attended to by them during the year was 599 as against 548 in the previous year Regarding the Mater nity and Child Welfare work in the City the Health Officer writes as under

There are two agencies at present employed, *viz*, The Gunamba Maternity and Child Welfare Trust and the Municipal midwives

The Gunamba Maternity and Child Welfare Trust is a quasi Government organisation There are two Honorary Secretaries for this Trust and one of them is the Health Officer of the City Municipality The executive work of the staff of the Trust is supervised by the two secretaries *Re* this the Health Officer writes as under

"The Municipal midwives are attached to the dispensaries and they are working under the direction of the Sub Assistant Surgeons in charge of the dispensaries It cannot be said that the work of these two agencies, *viz*, the Gunamba Maternity and Child Welfare Trust and the Municipal midwives, has been properly co ordinated The work of the midwives has been haphazard and their activities have not been specified In order to avoid this confusion a scheme has been drawn up wherein the City has been divided equally, on a population basis, among the Municipal and the Gunamba Maternity and Child Welfare Trust midwives Their work has been defined and great stress has been laid on house to house visiting according to approved advance programmes For carrying on efficient health work in any area, it is

necessary that there should be an agency which, for some reason or other, gains access into every house as frequently as possible, because it is by such frequent house visits alone that accurate and valuable information on various health matters can be obtained The midwives furnish such an agency and the base line survey that they have been asked to make will soon furnish quite a large amount of material which, when analysed will not only point out the various public health problems that the Municipality has to face, but also the order of their importance for selection for control

A start has been made now to systematise the activities of the Maternity and Child Welfare section The total number of Municipal and Gunamba Trust midwives is at present 24, excluding the one who is on relieving duty The City has been divided into 24 equal sections taking the population into consideration Systematic house survey has been started in order to collect information regarding several important public health questions in addition to those pertaining to Maternity and Child Welfare For example, the midwives have been asked to collect information regarding the incidence of tuberculosis, typhoid dysentery and other communicable diseases of importance, the sanitary defects observed in the houses etc and to record their observations in a book which is kept in every Centre The Sanitary Inspectors and the Overseers have been asked to collect the information thus furnished and to take such action as is necessary in regard to these from their point of view

It is hoped that the results of this survey and proper co ordination of work among the several agencies the useful work already done in the field of Maternity and Child Welfare will be considerably augmented and all expectant mothers and little children will have the attention they urgently need during this period

Vital Statistics —The Health Officer further states that it is not merely enough if data are collected and that it is exceeedingly important to have the information properly analysed and classified The clerical agency working at present he says, is not trained for this purpose Special training to these is therefore necessary in order to present these figures in an understandable way, and in order to provide this training proposals have beeen submitted for getting clerks trained at the statistical section of the Public Health Department at Bangalore, or to post men trained in this work from the Bureau of Vital Statistics

Registration —Regarding these also the Health Officer states that "the Sub Registrars of Births and Deaths are at present men who have not received any technical training in public health matters They do not therefore, understand the significance of collecting information accurately and in order to improve the quality of work in this Section proposals have been submitted for recruiting Assistant Sanitary Inspectors to do this work in the Municipality It has also been suggested that the posts of vaccinators too may be abolished and their places given to Assistant Sanitary Inspectors The advantages of this proposal are clear The Assistant Sanitary Inspectors are trained in all branches of sanitation and by recruiting such men for these jobs, their services may be employed in an emergency on other activities relating to public health besides the one on which they are actually engaged Further the Sub Registrars appointments are not graded There is therefore, very little enthusiasm for these men to do their work efficiently The Assistant Sanitary Inspectors places are, on the other hand graded appointments and the incumbents who will be junior men will have an aspiration to rise and the quality of work turned out by them will naturally be of a better order The scheme, moreover, will cost very little extra expenditure to the Municipality These proposals of the Health Officer are under active consideration

Creche —A creche for taking of the children of women working in the factories was opened near the Silk Factory during the year 1941–42 In addition to the free gift of a building costing about Rs 3,000 a monthly recurring grant of Rs 60 for the maintenance of this creche has also been sanctioned by the Municipality There is already a Creche existing in the Sri Krishnarajendra Mills and one in the Railway Workshop colony

For the construction of a building for Maternity and Child Welfare work, Mr J M Narasimha Naik has given a donation of Rs 2,000 Proposals for the construction, etc are under correspondence

The Council has also recorded with thanks the offer of Mr K Sitarama Rao, Proprietor, Modern Hindu Hotels to construct a dispensary building at Vanivilas puram He has since deposited a sum of Rs 2,000 for this purpose

At present the absence of quarters for doctors, compounders and midwives near the dispensaries has been a great inconvenience since these people will not be available if should any need suddenly arise Their presence near the Hospital buildings would be a very great convenience specially for A R P work Proposals for construction of suitable quarters for the midwife and the Sub Assistant Surgeon near the Hospital buildings are under active consideration

36 *Indigenous Hospitals, Vaidyasalas and Davakhanas* —The number of grant in aid indigenous and allopathic medical institutions was 16 during the year as against 14 in the previous year

Municipal Ayurvedic Dispensary —The Ayurvedic Dispensary in Krishnaraja mohalla was maintained by the Municipality during the year The number of patients treated in that dispensary was 95,145 as against 28,710 in the previous year

As considerable difficulty was observed in practice to change the Pandits and Compounders attached to the indigenous hospital maintained by the Municipality, the Municipal Council requested sanction of Government to revise the scales of pay of the Pandit and Compounder of the above dispensary so as to be the same as the scales prevailing in the Ayurvedic College and Hospital and also submitted proposals for interchange of Pandits and Compounders between these two institutions and in their Order No L 4258 60/Ml 11 42 39, dated 22nd October 1942, Government was pleased to approve of these proposals

Grants in aid Vaidyasalas and Davakhanas —Grant to 15 Hakims and Vaidyas practising in the City is being paid for out of Municipal Funds These institutions were till now being inspected by the Health Officer who was however only an allopathic doctor With a view to make the inspections more technical and effective, Government was requested to permit periodical inspections of these institutions by the Principal of the Ayurvedic and Unani College and the Superintendents of the Government Unani Hospital This was sanctioned by Government in their Order No 778 9—Muz 350 40 3 dated 4 11 1941 and inspections are now being made by these technical officers periodically These inspections have proved quite useful in improving the usefulness of these institutions

The question of standardising the scales of pay of the Ayurvedic Pandits and Unani Hakims was under the consideration of Government and the Goverment in their Order No L 2845-66/L B 74-40-6 dated 9th September 1942 passed orders revising the scales of pay of these classes of Medical Practitioners at Rs 30 1 40 per mensem so as to attract the right type of men with proper qualifications and also giving these practitioners a peon on Rs 8 per mensem and an allowance of Rs 12 per mensem for medical charges

At present there are 17 grant in aid institutions in the City, of which 12 are Ayurvedic and 5 Unani dispensaries In giving effect to the Government Order, the Municipality would incur an additional cost of Rs 4,590 per mensem The Government have therefore been requested to give a subvention of Rs 4,000 to the Municipality just as they propose to do to the District Boards in order to effect the above changes and their orders are awaited

The amount paid as grants to the several indigenous and allopathic medical institutions during the year was Rs 5,234 as against Rs 4,927 in the previous year

To go into the question of regularising the payment of grants to the different classes of institutions in the City and to frame a set of rules thereto, the Municipal Council in their Resolution No 587 dated 31st May 1941 appointed a sub committee consisting of eight members

The Sub Committee held seven meetings during the year The main items business transacted by the Committee are—Reviewing the reports and returns of Samajas and Sadanas, inspection of physical culture institutes, examining the question of standardising the payments of grants to indigenous institutions and opening of fresh Institutions and payment of grant in aid to certain Reading Rooms and Libraries opened to the public in the City They have framed also preliminary rules laying down the procedure for considering the payment of grant in aid to the above institutions and the framing of a final set of rules is engaging attention

37 *Other Medical Institutions subsidised from Municipal Funds* —There is only one such Institution in the City, *viz*, Secred Hearts Dispensary in Mysore South, to which a monthly grant of Rs 40 is made by the Municipality This institution is reported to be working satisfactorily

38 *Plague, Cholera and other Charges* – A sum of Rs 7,483 was spent, as detailed below, during the year under report under this head The Government have given a grant of Rs 18,05 for 1941-42 and R 1,770 on account of arrears of contribution for 1940 41

		Rs
1	Contribution for maintenanc of E D Hospital	4 000
2	Plague charges	1 234
3	Anti rat campaign charges	2 044
4	Cholera charges	5
	Total	7 483

39 *Vaccination* —Vaccination continued to be compulsory during the year A total of 32 564 vaccinations were done in the City in the year, as against 10,699 in the previous year Of these, 8,235 were primary and 24,329 re vaccinations The number of successful cases among the primary vaccinations was 7,407 during the year, as against 4,830 in the previous year The Municipality maintained 4 Vaccinators— 2 males and 2 females In addition to the permanent vaccinators, 4 Sub Registrars of Births and Deaths, who were trained in vaccination, also attended to the vaccination work during the year

These officials are at present directly recruited and they have no chances of promotion as they are not eligible for the post of Assistant Sanitary Inspector nor can they get promotion vacancies in the other departments of the Municipality The Health Officer also feels that these persons would be much more useful and efficient, if we could replace these vaccinators and Sub Registrars of Births and Deaths by trained Assistant Sanitary Inspectors who could in addition to being vaccinators or Sub Registrars be used also for Health Propoganda, general sanitary work, etc They could also be used to do special amelioration work in the Sweepers colonies, Adikar nataka colonies, etc Proposals in this connection put up before the Council were not approved in the form put up Further proposals are again being put up for reconsideration

40 *Veterinary Charges* —The Veterinary Dispensary in the City is under the control of the Veterinary Department the Municipality paying a contribution of Rs 420 every year

41 *Registration of Births and Deaths etc —Birth Rates* —The birth rate for 1942 was 36 46 as against 36 32 in the previous year and this is fairly satisfactory

There is a considerable variation in the births from year to year The Health Officer states that it is difficult to explain these variations, as the factors which play a part in increasing or decreasing the mortality rates are numerous and often obscure It should, however, be stated with confidence that much of these variations is due to errors in registration

Death Rates —The death rate for 1942 was 22 16 as against 21 8 in the previous year, and this is also satisfactory

Even in these an unduly large fluctuation from year to year has been noticeable, although from 1937 38 onwards, the trend has been distinctly favourable Further the rates for 1940 41 and 1941 42 are fairly reasonable, taking the circumstances into consideration

Infant Mortality Rate —The infant mortality for 1942 was 123 14 as against 133 11 in the previous year In reviewing this the Health Officer states that the infant mortality rates have been uniform and reasonable from 1937 38 onwards There was a rise in the rate during 1936 37 The details regarding the causes of death will have to be studied before this rise can be explained It is quite possible that certain childrens diseases might have prevailed in an epidemic form during that year The rates for the years previous to 1935 are very unsteady probably due to bad registration The rate of 125 for our community at the present moment is reasonably good, though not by any means perfectly satisfactory since the infant mortality rates in advanced countries elsewhere are as low as 60 and less It is only by lowering the infant mortality rates that marked difference in the trend of the general death rate could be brought about Because it is in this age group that a large number of deaths which could be prevented by systematic and scientific action occurs It is therefore, obvious that through intensifying the maternity and child welfare activities in the City its rates could be made more favourable

Maternal deaths, which also contribute considerably towards increasing the general death rates of a place, have not been properly analysed It is, therefore, difficult to say to what extent these rates are favourable or unfavourable

Of every single factor of importance in the modification of death rates, the economic condition stands foremost It is very necessary, therefore, that in order to appreciate the variations in these curves that we have an accurate knowledge of the economic status of the community we are dealing with '

Plague —The City was completely free from plague during the year As cyanogas was not available, no systematic gassing was done in the City

Cholera —The City was free from cholera

Smallpox —There were 77 attacks and 20 deaths from this disease during the year, as against 9 attacks with 2 deaths in the previous year Of these, 21 attacks and 6 deaths were among imported cases 32,564 vaccinations were performed in the City during the year as compared with 10 699 in the previous year Of these 8,235 vaccinations were primary and 24,329 re vaccinations Among the primary vaccinations 7,047 were successful

Consumption or Tuberculosis —312 deaths were registered from this disease as against 332 deaths during the previous year 124 deaths were among males and 188 among females, and 11 were Christians 214 Hindus, 69 Mohammadans and 18 belonged to other classes

The question of the control of tuberculosis has been engaging the attention of the Municipality This is a very large problem and it requires a well equipped organisation and a considerable expenditure if it has to be successfully tackled The organisation that is existing at present cannot be said to be adequate Unlike many other diseases tuberculosis stands on a different footing altogether Its control is not a problem concerning the medical and public health departments only To a large degree it is an economic and social evil and a programme for its control could pay attention first of all to the clearing of slums, the improvement of the economic status and to effect drastic changes in certain aspects of the social conditions of the population A good deal of propaganda is very necessary and the co operation of various development departments will have to be indented, if progress has to be achieved in this direction It has been variously estimated that for every death due to tuberculosis, there will be at least 10 to 20 active cases in a community Taking the lowest figure for computation the number of active cases in the City in 1942 would be nearly 3,500, and this shows the gravity of the situation and the largeness of the problem before the Municipality

A detailed study of the records relating to tuberculosis has just been taken up

Malaria —138 deaths were registered from this disease as against 123 in the previous year Reviewing this the Health Officer states that " it is always a question as to what extent the diagnosis of malaria as a cause of death is accurate in the ' Maidan parts of Mysore Very many of them are certainly mistaken diagnoses and the intensity of Malaria in Mysore City has never been so great as to account for deaths

There is always a tendency on the part of non medical registrars to place deaths through undiagonised fevers as having been due to malaria to ensure corrections in this regard is to insist on death certificates by qualified medical men before the disposal of the dead bodies, and this is a problem still to be solved

Typhoid —There were no communicable diseases of significance, during the year under report

Disinfection —Whenever any suspicious occurrences of major communicable diseases were received the infected places were thoroughly disinfected

433 houses were disinfected during the year as against 381 in the previous year

Sanitation —The work of the executive was satisfactory and the efficiency of the routine work was maintained

42 *Public Gardens and Buildings* —As in previous years, the Peoples Park and the Cheluvamba Park and the Rangacharlu Memorial Hall continued to be under the control of the Municipality The cost of maintenance of the public gardens was Rs 3,732 as against Rs 4,097 in the previous year

During the year playing apparatuses for children consisting of slides, seasaw and Swing were constructed in all the Mohallas the total number constructed being seven The design was modified to suit the requirements of very young children unlike the big ones which were provided for in previous years The late Sahucar

M C Thammiah has donated one set of children s play apparatus and his has been constructed in Krishnarajavanam

43 *Markets and Slaughter houses* *Markets* — There were 6 markets including the two small vegetable markets at Erangere and Vanivilaspuram A sum of Rs 77,000 was anticipated from these markets in the Budget Estimates of 1941–42 and against this, a sum of Rs 74,339 was realised The fall in income is due to the rate in the rent of shops in the Evening Bazaar being reduced and the number of shops that were vacant during the year in the several markets

In Devaraja, Mandi and Vanivilas Markets several large improvements have been undertaken such as concreting the foot paths and interior passages In Devaraja Market, improvements to cocoanut stalls, fruit stalls and vegetable stalls were effected at a cost of over Rs 7,500 Additional flush out latrines were constructed for the public The need for building bathing places and water closet, with towels, soaps, etc, made available was being urged for some time and accordingly the construction of a paying bathing place and water closet has recently been completed

An R C C verandah in front of a few shops on the eastern side to give a better appearance and also to provide greater accommodation for the people to move about was also constructed in Devaraja Market The lessees of shops contributed ¼ the expenditure on this account on the understanding that no extra rent would be charged for the improvements made so long as they continued as tenants It is proposed to continue this verandah in respect of all the shops facing west

Special arrangements for sanitation and cleaning in the markets have also been arranged and steps taken to prevent shop keepers exhibiting their wares on foot paths and verandahs On the whole every endeavour is being made to keep the market always clean and sanitary

Slaughterhouses — There were two slaughterhouses in the City as in previous years A sum of Rs 19 000 was expected to be realised from these slaughterhouses in the year but during the auctions the highest bid secured was only Rs 17,760 the actuals being therefore 1,240 less than the anticipated revenue The fall was stated to be due to the dull market for hides

74,451 animals were slaughtered during the year in the two municipal slaughter houses, as against 69,554 in the previous year The animals slaughtered were —

	1941–42	*1940–41*
Sheep	54 168	50 533
Bullocks	2 633	2 508
Goats	14 948	13 845
Cows	1 935	2 000
Buffaloes	767	668
Total	74 451	69 554

In order to provide better water facilities for washing the slaugher house, an R C cistern has recently been constructed in the slaughterhouse

The markets and slaughterhouses were inspected by the Sanitary staff and the concerned officers, and all unwholesome articles of food, fruits, vegetables, etc, were got destroyed and the offenders dealt with

44 *Avenues* — The avenues in the Municipality were looked after by the special staff employed for the purpose, under the supervision of the Municipal Engineer

A great number of ugly trees and plantings were removed and replaced by new ones during the year 1,160 avenue plants were also planted in the year All avenue trees in the City have been numbered and the Register of avenue trees brought up to date

An avenue nursery is being raised in the Municipal Farm in order to make available from our own farm all the plants required for the avenues of the City

45 *Fairs and Festivals* — A sum of Rs 9,407 was spent during the year, as against Rs 7,804 in the previous year The increased expenditure was mainly due to the expenditure on the Marriages in the Royal Family in June 1941 having been booked in the current year

46 *Sewage Farm* — The extent of the Farm at the beginning of the year was 179¾ acres 40 acres were acquired during the year and the acquisition proceedings for acquiring 50 acres more is under progress It is proposed to extend the boundaries of the Farm right up to the old and new Nanjangud Roads

A programme of improvements to the Farm has been drawn up and is being worked out In order to prevent flooding of the lower portions of the Farm the main storm water drain running in the middle of the Farm was widened and duly graded After this was done there has been no overflow There has also been considerable improvement in the low area which always used to be marshy The sewage drain at the highest cantour has also been considerably widened so as to take in more flow In order to make the areas on the other side of the Farm accessible, a reinforced concrete culvert has been put up and a motorable road by the side of the main drain constructed A proposal to put up another culvert near the dry cattle shed across the storm water hall has been recently sanctioned and the work is in progress The present sheds for stalling cattle in the night were absolutely inadequate and proposals have therefore been drawn up for improving the existing cattle sheds and constructing new ones so as to house all the cattle in the Farm The works are in various stages of progress

Septic Tanks—The septic tanks were badly silted up and a temporary gang was therefore sanctioned to clean these septic tanks and the silt chambers Records have now been maintained of the rate of silting up of these and it is seen that if the silt chambers are constantly cleaned there is no choking up of the septic tank Proposals for permanent establishment to clean these regularly are under consideration

The septic tanks now in the Farm were constructed years ago and since then a very large extent of the town has been sewered with the result that the capacity of the septic tanks is totaly inadequate It has therefore been proposed to duplicate the existing septic tanks and calculations are now being made to ascertain the total flow and the extent of the untreated sewage flowing out It is roughly anticipated that the duplication of the existing septic tanks would meet our purpose and this work has to be taken up very early if we should stop the leaving of the untreated sewage into the Farm or the hallas

The Farm was divided into blocks and foot paths and roads put up all over the Farm so that more closer inspection of these blocks would be possible

Vegetables Rapid expansion of the area grown Arrangements made for growing the vegetables with fresh water—Special attention is being paid to the increased growth of vegetables in the Farm Owing to the rapid expansion of the demand, an additional extent of 15 acres of land is now brought under vegetable cultivation and it is proposed to still further increase the area under vegetables As the Health Officer felt that the growing of vegetables especially root bearing ones in sewage water and the use of this unboiled may be unhealthy, it was proposed to use only fresh water for the growth of these vegetables A pump is now being put up to the existing well near the Municipal cattle shed and arrangements are made to irrigate all the area here with fresh water A new well has also been put up near the compost yard and it is proposed to bring in a large area under irrigation under this well This well in addition to providing fresh water for washing carts etc, is expected to serve about 10 acres for growing vegetables Proposals are also under consideration to put up two sets of bathing rooms for the employees at the Farm so that they could all have a fresh bath before going to their houses

Among indigenous and imported vegetables, the following were tried and grown successfully—

Cauliflower Beet root, carrot, Parsley Bottle gourd, Sparge gourd Bean, Sweet pumpkin Ash gourd, lady s finger, Capsicum, Brinjal, Lettuce and other greens

All the undulations and pits in the Farm were filled up and rank vegetation removed

About 200 pits were dug up for extending cocoanut cultivation The cocoanut plants in the Farm are now yielding good revenue and in order therefore to improve this important source of revenue it is proposed to plant more cocoanut avenues taking up also additional areas for cocoanut plantation Similarly arrangements are being made to grow sweet smelling flower plants in the Farm and more Jasmine, Champal a and other flowering plants have been put up The area under plantains and papayas has also increased

Revenues—The improvements made in the farm have already begun to yield additional revenue The total revenue from the Farm during the year was Rs 27,229 as against Rs 25 319 in the previous year, the expenditure in the year being

Rs 16,208 as against Rs 19,229 in 1940–41 The net receipt for the year is Rs 11,021 as against Rs 6,090 in the previous year

It is a matter for great satisfaction that the entire programme of improvements have been carried out from normal revenues only leaving a handsome surplus besides

Compost —The manufacture of compost out of street rubbish and night soil was continued during the year A quantity of 1 800 tons of compost was prepared during the year as against 2,000 tons in the previous year, the lower output being due in the main to the increased number of treatments given to the rubbish piles with a view to improve the quality of the old compost and also using street rubbish to fill up hallas, Purniah s nala, etc The realisations from the sale of compost during the year were Rs 775 as against Rs 2,477 in the previous year

The Agricultural Department has been requested to do propaganda amongst the ryots and see that more of this valuable compost is utilised for agricultural purposes In order to make the compost more popular the rate has been reduced from Rs 1–8–0 to Re 1–0–0, and all necessary facilities are given to ryots to take the compost from the Farm

Season —The season was on the whole favourable for Farm operations

The total rainfall as gauged at the Farm for the year was 32 33 inches as against 50 69 inches in the previous year

Dry Cattle Shed —The dry cattle shed experiment has been really very successful More and more dry cattle are being admitted every year With the increased accommodation to be provided to the cattle sent to us for care, during the period and more attention being paid to them, it is expected that this scheme will be still a greater success Three hundred and thirty eight cows were admitted to the dry cows shed during the year and 186 cows were discharged At the close of the year there were 152 cows The amount realised from dry cows shed this year was Rs 3,225–0–8 as against Rs 2,073–2–6 in the previous year

About 200 cows were served by the Breeding Bulls in the Farm

The Municipal Council also is contemplating to attach a Dairy on Joint Stock Company basis to the Sewage Farm A committee has been appointed for this purpose and it is expected that the report of this committee will be placed for consideration before the Municipal Council very shortly

Cattle pound —About 460 animals were admitted to the pounds during the year The amount realised was Rs 374–2–9 during the year

Municipal Workshop —This section is doing very good work in attending to original and repair works of the night soil carts, rubbish carts, motor lorries, etc, belonging to the municipality If the workshop section is expanded, with the large number of motor and other vehicles owned by the municipality, this will be one of the most useful activities of the municipality The expansion of this section is under active consideration

Poultry —The poultry has been considerably reduced this year It is proposed to do away with this section as it is found by experience that the Farm atmosphere is not at all congenial for them to thrive satisfactorily

E Public Instruction 47 —The Municipal Council ceased to be the Local Education Authority from 1941-42 since the control over these schools was made over to the Education Department on 1st July 1941 in accordance with Government Order No E 4884 98/Edn 55 40 19 dated 24 6 1941

G CONTRIBUTIONS AND GRANTS IN AID

48 *Public Libraries and Reading Rooms* —The Municipality contributed during the year a sum of Rs 560 for five Libraries and Reading Rooms, and a sum of Rs 625 for (5) Ladies Institutions doing Literary and Social work There is a proposal for opening six more Reading Rooms and Libraries at the cost of the Municipality in several mohallas in the City, during the current year, and action has already been taken in the matter

The University Literacy Council has been assisting the Municipality in its endeavour to increase the number of public libraries and Reading Rooms

A sum of Rs 1 000 was paid as an outright grant to the Deaf and Dumb institute in the City besides the grants made to the non official institutions noted below, during the year

Physical Culture Institutions —All the five institutes in the City continued to receive grants during the year and the total grant made thereto amounted to Rs 1,440 During the year the grant payable to the Vyayamasala in Jaganmohan Palace was increased from Rs 15 to Rs 25 per mensem on account of its efficient work

The following institutions are also in receipt of grants as noted against each —

1	The Civic and Social Progress Association	Rs 25 per mensem
2	Harijan Sevak Sangha	Rs 25 per mensem
3	Creche near Silk Factory	Rs 60 per mensem in addition to an initial equipment grant of Rs 250
4	Nursery School	Rs 50 per mensem and lumpsum grants were also made to the following institutions —

1	City Scout Council	200
2	Baby Show	300
3	Red Cross Society	25
4	Horticultural Show	75
5	Hindi Prachara Sabha	300
6	Vysya Youth League	100
7	Mahila Sadana	125
8	Nikhila Karnataka Ayurvedic Conference	150
9	Vanitha Sadana	150
10	Mathru Mandali	100
11	Bhagini Seva Samaja	150
12	Literacy Campaign	500
13	Ramakrishna Ashrama Reading Room	60
14	Jagadamba Sisu Vihar	100
15	Si u Vihar at Vanivilaspuram	100

The question of giving grants to these institutions have been examined by the sub committee who have framed draft rules for regulating the payments The rules are under consideration

MISCELLANEOUS

49 *Interest on Debts* —A sum of Rs 24,428 was paid during the year on this account

I PUBLIC DEBT

50 *Repayment of Loans* —A sum of Rs 28,000 was paid towards Principal and the balance of loan at the end of the year was Rs 7,68,000 A sum of Rs 24,428 was paid towards interest during the year

52 *Audit of Accounts and Embezzlement* —The system of pre audit by the Comptroller s Office staff continued during the year The audit objections raised were mostly objections regarding want of sanction, appropriation, etc, in respect of ordinary works and payments No serious irregularities were noticed

No cases of embezzlement were reported during the year

53 *General* —Propaganda for educating the public generally regarding municipal matters, sanitation etc, and keeping them informed about what the Municipality in all its branches are doing is being arranged for But for various reasons as much intensive action as was intended could not be taken A few lectures were also delivered through Akash Vani

The Health Officer has also been requested to give a programme of magic lantern lectures on public health, sanitation, epidemic diseases and their prevention in every mohalla in the City and in all the schools The Health Officer is however very much handicapped in all these matters for want of time as he is fully engaged with his ordinary routine duties which leaves him very little time for these extra routine activities

As stated last year the housing programme for sweepers and scavengers is being pursued 18 new houses have been constructed and estimates for constructing 12 more houses have been sanctioned and are in progress Some of the sweepers have represented that if cheap sanitary houses are built for them they are prepared to purchase the same on instalment basis This question is under consideration and it is proposed to build a set of at least 24 houses in Jalapuri for the benefit o these sweepers

Special attention has also been paid to keep the areas where the sweepers are living clean and tidy, to give them bath rooms, etc This has been made one of the most important charges of the Sanitary Inspectors Consequent on this there has

been some noticeable improvement in these areas Sweepers' colonies are being provided with good metalled roads A new type of public bath providing for bathing facilities and facilities for washing clothes has been provided and it is expected that these will get popular and serve a great want A similar bath room is being constructed for the sweepers and other coolies engaged on the Sewage Farm

Children s play apparatus have been provided in these places and also in various other localities in the City In spite of increase in the cost of materials it is proposed to provide many more of such appliances In order to give a stimulus for maintaining the sweepers quarters in a good condition, the Health Officer has been instructed to give prizes for the best maintained sweepers quarters

At present no pension or Provident Fund scheme is in vogue for our sweepers and scavengers As mentioned in the last year s report a Provident Fund Scheme for sweepers and scavangers had been submitted to Government and this has been returned back and this is before the Legal Committee It is expected that this will be pushed through very rapidly and it is proposed to give effect to these proposals from 1st July 1941

Conclusion —The work of the Department was on the whole satisfactory and I wish to take this opportunity to thank the Health Officer, the Municipal Engineer, the Revenue Officer and all the subordinate staff in every section for their very close co operation in the conduct of the administration

The relations between the Municipal Executive and the Councillors on the whole continued to be satisfactory

The acknowledgments of the executive are due to the two Vice Presidents (Mr T Mariappa and Mr P Sitaramiah) and to the Municipal Councillors for their continued interest, co operation and valuable suggestions in the working of the municipality

B. S RAGHAVENDRA RAO

President
